01 Product description and specification

Product description	Motorised dry boot scrubber manufactured in South Africa for mines and industrial production areas. Two brushes clean boot soles and sides, with mild steel construction, support handrails and reversible brush direction for the planned flow of personnel.
Short Form Specification	**SPECIFICATION USE** Use this description when specifying this product range. Basterfield B65220(RD-520). Dry Double-Brush Boot Scrubber with Handrails.

02 Application information

Intended applications	Footwear Cleaning and Disinfection
Industries	Food & Beverage Processing, Meat & Poultry Processing

03 Supply and support

Typical lead time	10–15 working days
Warranty	12 months

04 Frequently asked questions

Is B65220(RD-520) a motorised boot scrubber?

Yes. It uses two powered brushes to clean boot soles and sides. A variable-direction motor allows brush direction to suit the planned flow of personnel.

Does this dry boot scrubber wash or disinfect footwear?

It is intended for dry removal of dirt from soles and sides. It does not provide the water and chemical-dosing functions of the wet boot-washer range.

Where is this industrial boot scrubber used?

Typical settings include mines, large production facilities and industrial access points where dry footwear cleaning is appropriate.

121 Koornhof Road, Meadowdale, Germiston, South Africa, 1614 · hello@basterfield.co.za · basterfield.co.za · +27 87 095 5357

What support handrails are supplied?

The unit has support handrails, with one side handrail removable where required. Confirm the installation layout and access requirements when ordering.
