01 Model specification

Autopsy Headrest, Child Configuration, Grade 304 Stainless Steel, 1.2mm Material Thickness, (220mm (L) × 80mm (W) × 60mm (H)), with 55mm Radius Head Support, Basterfield H72910(112-C)

02 Technical specifications

PARAMETER	VALUE	UNIT	TECHNICAL NOTE
Length	220	mm	The length of the item typically as measured from left to right.
Width	80	mm	The width of the item typically as measured from front to back.
Material	Stainless Steel Grade 304	–	The primary material used in the construction of the item. Certain components may be manufactured from different materials.
Material Thickness	1.2	mm	The thickness of the material used for the item's primary construction. The thickness of individual components may vary.

03 Dimensions and mass

PARAMETER	VALUE	UNIT
Length	220	mm
Width	80	mm
Overall height	60	mm

04 Model and supply data

Parent product	H72910(112-C) — Stainless Steel Autopsy Headrest
Typical lead time	10–15 working days
Warranty	12 months

05 Specification notes

Configuration description

The Basterfield H72910(112-C) child headrest provides positioning support during mortuary, pathology and forensic examinations. It is fabricated from 1.2mm Grade 304 stainless steel, with overall dimensions of 220mm (L) × 80mm (W) × 60mm (H) and a contoured 55mm radius head-support profile.

The defined dimensions and support radius help the buyer compare the headrest with the required examination setup. This child configuration has its own model reference so repeat orders can specify the same size and profile.

The specification sheet includes an isometric render and dimensioned front and top drawings for checking the shape and footprint before ordering. Quote the complete model reference, dimensions and support radius when requesting quantities or a scheduled supply programme. For bulk or phased orders, the accepted quotation and its tranche programme govern manufacturing lead time and availability.

Short Form Specification

> **SPECIFICATION USE**
> Use this description when specifying this model.

Basterfield H72910(112-C) Child Headrest; Grade 304 Stainless Steel; 1.2mm Construction; Overall Dimensions 220mm (L) × 80mm (W) × 60mm (H); Contoured Head Support with 55mm Radius; for Positioning Support During Examinations.

Detailed specification

- Catalogue Reference: H72910(112-C)
- Configuration: Child Headrest
- Material: Grade 304 Stainless Steel
- Material Thickness: 1.2mm
- Overall Length: 220mm
- Overall Width: 80mm
- Overall Height: 60mm
- Head-Support Profile Radius: 55mm
- Function: Positioning Support During Examinations
- Documentation: Isometric Render and Dimensioned Front and Top Drawings
- Bulk and Phased Supply: Lead Time and Availability as Stated in the Accepted Quotation

06 Frequently asked questions

What are the overall dimensions?

The child headrest measures 220mm (L) × 80mm (W) × 60mm (H) overall.

What is the support radius?

The contoured head-support profile has a 55mm radius.

Which material and thickness are specified?

Both headrest sizes are fabricated from 1.2mm Grade 304 stainless steel.

How should I identify this headrest when ordering?

Quote catalogue reference H72910(112-C), the 220mm (L) × 80mm (W) × 60mm (H) overall dimensions and the 55mm support radius.

How do the adult and child configurations differ?

The adult H72910(112-A) is 300mm × 150mm × 120mm with a 106mm support radius. The child H72910(112-C) is 220mm × 80mm × 60mm with a 55mm support radius. Check the complete dimensions and profile against the intended examination setup.

Are a render and dimensioned drawings available?

Yes. The specification sheet includes an isometric render plus dimensioned front and top drawings for this configuration.

Which lead time applies to a bulk or phased order?

Any typical catalogue lead time is general guidance. The accepted quotation and its agreed tranche programme govern bulk or phased orders, including release dates, deposits, production capacity and readiness for collection or dispatch.
