01 Product description and specification

Product description

Combination bedpan and wash-up sink with tapware package #4, a 104 flush valve and an elbow-operated hot-and-cold medical mixer. Available in 1830, 2135 or 2440 mm lengths with a left- or right-hand sluice outlet.

Short Form Specification

SPECIFICATION USE
Use this description when specifying this product range.

Basterfield B22330(T4) combination bedpan and wash-up sink on gallows brackets with tapware package #4, 104 flush valve and elbow-operated hot-and-cold medical mixer. Specify 1830, 2135 or 2440 mm length and left- or right-hand sluice outlet.

02 Configuration options

Length	1830 mm; 2135 mm; 2440 mm
Sluice outlet position	Left Hand; Right Hand

Options vary by model; not every combination is available. Use the product page to select a model.

03 Functional features

01 **Combined bedpan sluice and wash-up sink**
A bedpan sluice and adjacent wash-up sink combined in one unit.

02 **Medical mixer included**
Package #4 adds an elbow-operated hot-and-cold medical mixer to the T3 package.

03 **104 flush valve**
Package #4 includes the same T3 tapware and 104 flush valve.

04 **Three standard lengths**
Available in 1830, 2135 and 2440 mm lengths.

05 **Left- or right-hand sluice outlet**
Both outlet positions are available in every standard length.

06 **Gallows-bracket mounting**
The sink is supplied on gallows brackets.

Intended applications	Hospital Sinks, Sluice Rooms (Dirty Utility Rooms)
Industries	Aged Care & Nursing Homes, Hospitals & Clinics

05 Supply and support

Typical lead time	10–15 working days
Warranty	24 months

06 Frequently asked questions

Which lengths are available?

The standard B22330 lengths are 1830, 2135 and 2440 mm. Each length is available with a left- or right-hand sluice outlet.

Can I choose a left- or right-hand outlet?

Yes. Every standard length is available with either a left-hand or right-hand sluice outlet.

What is the difference between T3, T4 and HLC?

T3 includes tapware package #3 with a 104 flush valve. T4 includes the same sink, T3 tapware and 104 flush valve, plus an elbow-operated hot-and-cold medical mixer as part of package #4. HLC uses tapware package #2 with a high-level cistern. All three packages are available in the same standard lengths and outlet positions.

Where is this combination sink used?

The B22330 combines bedpan sluicing and an adjacent wash-up sink for sluice rooms, also called dirty utility rooms, in hospitals, clinics, aged-care facilities and nursing homes.

How is the sink mounted?

The unit is supplied on gallows brackets.
