| Product description      | <p>The Walcro 106B is an exposed, manually lever-operated toilet flushing valve for a back-entry WC pan. The issued catalogue code is 04VF_WAL-106B and the supplied specification reference is 04VF_WAL106{PSS}.</p> <p>The valve has a 25 mm BSP water inlet, a chrome-plated DZR brass body and a standard 350 mm back-entry flush pipe. The 25 mm size is the nominal inlet connection, not an overall product length.</p> <p>The operating-pressure range is 30 kPa to 600 kPa. Confirm the available water supply and flush-pipe alignment for the selected WC pan before installation.</p> <p>This valve is a separately priced optional flushing system for compatible back-entry WC pans, including B17642(P) and B17642(S). The WC pan is supplied separately. Designed and manufactured in South Africa.</p> |
| Short Form Specification | <p><b>SPECIFICATION USE</b></p> <p>Use this description when specifying this product range.</p> <p>Walcro 106B exposed lever-operated toilet flushing valve, catalogue code 04VF_WAL-106B, to specification reference 04VF_WAL106{PSS}. Back-entry type; 25 mm BSP inlet; chrome-plated DZR brass body; standard 350 mm back-entry flush pipe; operating-pressure range 30 kPa to 600 kPa. WC pan supplied separately.</p>                                                                                                                                                                                                                                                                                                                                                                                              |

02 Models and configurations

| MODEL         | DESCRIPTION                                                                                                                                                                                                      | PUBLISHED CONFIGURATION |
|---------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|
| 04VF_WAL-106B | Walcro 106B exposed lever-operated chrome toilet flushing valve, back-entry type, to 04VF_WAL106B{PSS}. 25 mm BSP inlet with standard 350 mm back-entry flush pipe. Operating-pressure range: 30 kPa to 600 kPa. | Standard configuration  |

03 Supply and support

|                   |                    |
|-------------------|--------------------|
| Typical lead time | 10–15 working days |
| Warranty          | 12 months          |

**VERIFICATION REQUIRED** Published values are provided for initial specification. Confirm the selected model, critical dimensions, site services, clearances, and the latest document revision with Basterfield before procurement, manufacture, or installation. E&OE.
