MODEL SPECIFICATION

A08091(312-5000) – Scoop Flat Stainless Steel Grade 316 5kg

DOCUMENT SCOPE	DOCUMENT REFERENCE	GENERATED ON
Model	A08091(312-5000){PSS}	14 Nov 2026

01 Model specification

Scoop, Flat, Stainless Steel Grade 316, 1.2mm Thick, with a Nominal 5kg Volumetric Capacity Based on the Density of Water

02 Technical specifications

PARAMETER	VALUE	UNIT	TECHNICAL NOTE
Material	Stainless Steel Grade 316	–	The primary material used in the construction of the item. Certain components may be manufactured from different materials.
Material Thickness	1.2	mm	The thickness of the material used for the item's primary construction. The thickness of individual components may vary.
Capacity (kg)	5	kg	–

03 Model and supply data

Parent product	A08091 — Stainless Steel Flat Scoops
Typical lead time	5–10 working days
Warranty	12 months

04 Specification notes

Configuration description

The Basterfield A08091(312-5000) is a flat scoop manufactured from 1.2mm Grade 316 stainless steel with a nominal 5kg volumetric capacity.

The stated capacity is based on the density of water. The mass held when scooping other materials will vary according to their bulk density.

Select this configuration to request a quotation. Pricing is confirmed by quotation.

Short Form Specification

SPECIFICATION USE
Use this description when specifying this model.

Basterfield A08091(312-5000). Scoop, Flat, Stainless Steel Grade 316, 1.2mm Thick, with a Nominal 5kg Volumetric Capacity. Capacity is based on the density of water. Price on request.

Detailed specification

- Model: A08091(312-5000)
- Nominal volumetric capacity: 5kg
- Capacity basis: Density of water
- Material: Grade 316 stainless steel
- Material thickness: 1.2mm
- Pricing: Price on request

05 Frequently asked questions

What scoop sizes are available?

The published range includes nominal 250 g, 500 g, 1 kg, 2 kg and 5 kg sizes.

How are the stated scoop capacities calculated?

The stated capacities are volumetric and are based on the density of water. The mass of other materials will vary according to their bulk density.

What is the standard material?

The standard scoops are manufactured from 1.2 mm Grade 304 stainless steel.

Is Grade 316 stainless steel available?

Yes. Select Stainless Steel Grade 316 under Material, then choose the required capacity and add the configuration to your quote. Grade 316 pricing is available on request.

What is the lead time?

The standard lead time is 5–10 working days.

Do the displayed prices include VAT?

No. Published prices exclude VAT.
