01 Product description and specification

Product description

The Basterfield A08091 range comprises flat stainless steel scoops for handling and transferring dry ingredients, powders and granules. Five nominal sizes are available: 250 g, 500 g, 1 kg, 2 kg and 5 kg.

Each standard scoop is manufactured from 1.2 mm Grade 304 stainless steel. Grade 316 stainless steel is available as an alternative on request.

Please note that the stated capacities are volumetric and are based on the density of water. The mass held when scooping other materials will vary according to their bulk density.

The standard lead time is 5–10 working days. Published prices exclude VAT.
