01 Product description and specification

Product description	Grade 304 stainless steel flat scoop for handling dry ingredients, powders and granules in food preparation and production areas. Crafted from stainless steel Grade 304, these scoops provide exceptional durability, corrosion resistance, and hygiene, making them suitable for handling dry goods, powders, granules, and other ingredients in commercial kitchens and food processing environments. Featuring a flat-bottom design, these scoops offer improved stability when resting on surfaces, reducing spills and ensuring efficient portioning. Their ergonomic, easy-grip handle allows for controlled scooping and pouring, while the seamless stainless steel construction ensures effortless cleaning and long-lasting use. Available in five practical sizes—250g, 500g, 1 kg, 2 kg, and 5 kg—these scoops provide a versatile solution for measuring and transferring ingredients with accuracy and consistency.
Short Form Specification	SPECIFICATION USE Use this description when specifying this product range. Basterfield A08091. Stainless Steel Flat Scoops. Capacity (kg): 0.25 kg, 1 kg, 0.5 kg, 2 kg, 5 kg. Available in five practical sizes—250g, 500g, 1 kg, 2 kg, and 5 kg—these scoops provide a versatile solution for measuring and transferring ingredients with accuracy and consistency.
