05 Supply and support

Typical lead time	10–15 working days
Warranty	12 months

06 Frequently asked questions

Which mixing paddle configurations are available?

Choose Solid or Perforated under Face Style, then choose 900 mm or 1200 mm under Length. Both face styles are available in both lengths.

What is the difference between the face styles?

The solid paddle has an unperforated flat face. The perforated paddle has openings that allow liquid to pass through the face during mixing. Both have square-edged faces.

What material is used?

The A66210 mixing paddle range is manufactured from Grade 304 stainless steel.
