Warranty	24 months

06 Frequently asked questions

Which choices identify the required paddle?

Select Face Style and Length together. The published range offers solid and perforated faces in 900 mm and 1200 mm lengths.

What is the difference between solid and perforated faces?

Solid models have an unperforated face. Perforated models have openings in the face. Both use rounded face corners.

Which material is specified?

The A66211 mixing paddle range uses Grade 304 stainless steel.

Where can I find the face dimensions?

Check the selected item description and specifications for the face dimensions recorded for that configuration, and quote the complete item code when ordering.
