01 Product description and specification

Product description	Grade 304 stainless steel mixing paddle with rounded face corners, available with a solid or perforated face to suit the mixing task. The paddle is available in solid or perforated versions to suit different mixing needs—solid for heavy ingredients and perforated for lighter, faster blending. The long 900 mm and 1200 mm handles provide superior reach, making this the perfect tool for commercial kitchens, breweries, and food production facilities.
Short Form Specification	SPECIFICATION USE Use this description when specifying this product range. Basterfield A66211. Stainless Steel Mixing Paddle With Rounded Face. Length: 900 mm, 1200 mm. Face Style: Perforated, Solid.
