01 Product description and specification

Product description	Grade 304 stainless steel mixing paddle with a square face and D-handle for stirring and handling ingredients in food processing vessels. The square-edged face allows for precise mixing, stirring, and folding of ingredients, ensuring an even consistency across a wide range of applications. This variation features a sturdy D-handle, enhancing grip and manoeuvrability, making it easier to apply controlled force when mixing dense or heavy mixtures. Available with a solid face for thorough blending of thick ingredients or a perforated design to minimize resistance when working with liquids, this paddle adapts to diverse food preparation needs. With length options of 900 mm and 1200 mm, it provides ample reach for deep mixing containers and large batch processing. Built for professional kitchens, industrial food production, and commercial bakeries, this mixing paddle is an essential tool for achieving consistent results while maintaining hygiene and ease of cleaning.
Short Form Specification	SPECIFICATION USE Use this description when specifying this product range. Basterfield A66215. Stainless Steel Mixing Paddle Square Face with D-Handle. Length: 900 mm, 1200 mm. Face Style: Perforated, Solid. This variation features a sturdy D-handle, enhancing grip and manoeuvrability, making it easier to apply controlled force when mixing dense or heavy mixtures. With length options of 900 mm and 1200 mm, it provides ample reach for deep mixing containers and large batch processing.
