01 Product description and specification

Product description	The B17654(PT) top-entry WC pan is a wall-mounted stainless steel toilet with a P-trap and a top-entry flush inlet. It is intended for public, commercial, educational and institutional ablution facilities. Toilet mounting holes are omitted by default. Select the optional standard toilet mounting holes when required; the selected item code gains the -H suffix. For the P-trap, top-entry version, B17654(PT) has no toilet mounting holes and B17654(PT-H) has standard toilet mounting holes. Excludes toilet seat and flush valve unless otherwise specified. A flushing system is selected and priced separately. Compatible top-entry models offer the B17110(L380-DPB) 9 L stainless steel cistern or, as an alternative, the Walcro 106T exposed lever-operated flushing valve with a 25 mm inlet. Select the flushing arrangement for the available water supply and installation layout. Coordinate the wall support, waste outlet, flushing connection and selected seat with the site layout. Specify the mounting-hole option when ordering.
Short Form Specification	SPECIFICATION USE Use this description when specifying this product range. Basterfield B17654(PT). Wall-mounted stainless steel WC pan with P-trap and top-entry flush inlet for public, commercial and institutional washrooms. Toilet mounting holes are optional and omitted as standard.
