04 Specification notes

Configuration description	Shrouded Disabled WC Pan Wall Mounted with P-Trap, Top-Entry Flush Inlet and Standard Toilet Mounting Holes. Excludes toilet seat and flush valve unless otherwise specified. The B17659(PT) is a shrouded wall-mounted Grade 304 stainless steel WC pan with a P-trap and top-entry flush inlet. It is intended for accessible washroom layouts and includes a wall-mounting bracket. B17659(PT) is supplied without toilet mounting holes as standard. Select the optional standard toilet mounting holes to choose B17659(PT-H). Excludes toilet seat and flush valve unless otherwise specified. The B17110(L380-DPB) 9 L stainless steel cistern and Walcro 106T exposed lever-operated top-entry valve are optional, separately priced flushing alternatives. Select one flushing arrangement to match the water supply and installation. Coordinate wall support, waste outlet and flushing connections with the site layout. Plan the accessible installation as a complete washroom layout, including mounting height and clearances.
Short Form Specification	**SPECIFICATION USE** Use this description when specifying this model. B17659(PT-H). Shrouded Disabled WC Pan Wall Mounted with P-Trap, Top-Entry Flush Inlet and Standard Toilet Mounting Holes. Excludes toilet seat and flush valve unless otherwise specified.

05 Frequently asked questions

Are toilet mounting holes included as standard?

No. Toilet mounting holes are omitted by default. Choose the optional standard toilet mounting holes when required. For the P-trap top-entry pan, the code changes from B17659(PT) to B17659(PT-H).

Are the toilet seat and flush valve included?

Excludes toilet seat and flush valve unless otherwise specified.

Which flushing options are offered for top-entry models?

The B17110(L380-DPB) 9 L stainless steel cistern is optional. The Walcro 106T exposed lever-operated top-entry flush valve is an optional alternative. Select one flushing arrangement to suit the installation; both are priced separately.

What does PT mean in the item code?

P identifies the P-trap and T identifies the top-entry flush inlet. The additional -H suffix identifies the optional standard toilet mounting holes.

Can the top-entry flushing options be used on a back-entry pan?

Choose a flushing system that matches the pan inlet. The listed cistern and Walcro 106T options apply to top-entry pans; back-entry pans require an appropriate back-entry flushing arrangement.
