Industries	Colleges & Universities, General Manufacturing, Government & Public Sector, Hospitals & Clinics, Schools

05 Supply and support

Typical lead time	10–15 working days
Warranty	12 months

06 Frequently asked questions

Are toilet mounting holes included as standard?

No. Toilet mounting holes are omitted by default. Choose the optional standard toilet mounting holes when required. For the P-trap top-entry pan, the code changes from B17659(PT) to B17659(PT-H).

Are the toilet seat and flush valve included?

Excludes toilet seat and flush valve unless otherwise specified.

Which flushing options are offered for top-entry models?

The B17110(L380-DPB) 9 L stainless steel cistern is optional. The Walcro 106T exposed lever-operated top-entry flush valve is an optional alternative. Select one flushing arrangement to suit the installation; both are priced separately.

What does PT mean in the item code?

P identifies the P-trap and T identifies the top-entry flush inlet. The additional -H suffix identifies the optional standard toilet mounting holes.

Can the top-entry flushing options be used on a back-entry pan?

Choose a flushing system that matches the pan inlet. The listed cistern and Walcro 106T options apply to top-entry pans; back-entry pans require an appropriate back-entry flushing arrangement.
