01 Product description and specification

Product description	Compact surgeon scrub-up sink for clinical handwashing areas where a smaller fixture is required. The unit comes with a pressed bowl measuring 525 × 425 × 258 mm deep, manufactured from Grade 304 (18/10) stainless steel with a thickness of 0.9 mm. The unit has waste outlet, and it features a 300 mm high integral splashback with tap holes for a medical elbow action mixer. Construction and features The unit is made from Grade 304 (18/10) stainless steel, which makes it durable and easy to clean. Its non-porous, impervious surface makes it as hygienic as ceramic ware but with the added advantage of being able to withstand impact and sudden shock. The unit comes with a hinged grate, rubber bumpers, heavy-duty brackets, and a large bowl.
