01 Product description and specification

Product description

Compact Basterfield B22326(WFP) wall-mounted mini surgeon scrub-up sink for clinics, hospital wards and veterinary facilities. Manufactured from 1.2 mm Grade 304 (18/10) stainless steel, it measures 665 mm long x 554 mm wide x 260 mm deep. A 300 mm integral splashback has tap holes for a medical elbow-action mixer. Supplied with a waste outlet, heavy-duty mounting brackets, a hinged grate and rubber bumpers. The wall-mounted design keeps the floor beneath the sink clear for cleaning.

Short Form Specification

SPECIFICATION USE
Use this description when specifying this product range.

Basterfield B22326(WFP) wall-mounted mini surgeon scrub-up sink to B22326(WFP){PSS}; 665 mm (L) x 554 mm (W) x 260 mm depth, manufactured from 1.2 mm Grade 304 (18/10) stainless steel. Pressed bowl: 525 × 425 mm, 260 mm deep. Integral splashback: 300 mm high, with tap holes for a medical elbow-action mixer. Complete with waste outlet, heavy-duty mounting brackets, hinged grate and rubber bumpers. Mixer and plumbing connections to be confirmed for the installation.

02 Functional features

01 **Wall-mounted layout**
The 665 x 554 mm wall-mounted unit is supported by heavy-duty brackets, keeping the floor beneath it clear for cleaning.

02 **Grade 304 stainless steel**
1.2 mm Grade 304 (18/10) stainless steel provides a durable, non-porous surface that is easy to clean.

03 **Deep pressed bowl**
The 525 x 425 mm pressed bowl is 260 mm deep, providing a generous washing area in a compact scrub-up sink.

04 **300 mm integral splashback**
The raised splashback helps protect the wall behind the sink from splashes during washing.

05 **Medical mixer provision**
Tap holes in the splashback accommodate a medical elbow-action mixer. Specify the required mixer when requesting a quote.

121 Koornhof Road, Meadowdale, Germiston, South Africa, 1614 · hello@basterfield.co.za · basterfield.co.za · +27 87 095 5357

06 **Hinged grate and rubber bumpers**

Supplied with a hinged grate and rubber bumpers, together with a waste outlet and mounting brackets.

03 Application information

Intended applications	Handwashing, Hospital Sinks
Industries	Hospitals & Clinics, Veterinary Services

04 Supply and support

Typical lead time	10–15 working days
Warranty	24 months

05 Frequently asked questions

Where can the B22326(WFP) mini scrub-up sink be used?

The B22326(WFP) is intended for handwashing areas in clinics, hospital wards and veterinary facilities where a compact wall-mounted sink is required.

What are the sink and bowl dimensions?

The wall-mounted sink measures 665 mm long x 554 mm wide with a depth of 260 mm. The pressed bowl measures 525 x 425 mm and is 260 mm deep. The integral splashback is 300 mm high; this is a separate measurement from the bowl depth.

Which type of tap is the sink prepared for?

The integral splashback has tap holes for a medical elbow-action mixer. Specify the required mixer when requesting a quotation so its supply, compatibility and plumbing connections can be confirmed.

What material is the sink made from?

The sink is manufactured from 1.2 mm Grade 304 (18/10) stainless steel, providing a durable, non-porous surface that is easy to clean.

What fittings are supplied with the sink?

The unit is supplied with a waste outlet, heavy-duty wall-mounting brackets, a hinged grate and rubber bumpers. Confirm the required mixer and plumbing connections when requesting a quotation.

Does the sink have a splashback?

Yes. The sink has a 300 mm high integral splashback with tap holes for a medical elbow-action mixer. The splashback helps protect the wall behind the washing area.
