Detailed specification	• Model: B22335(LTG-112-1600-HLC) • Cistern Orientation: Left Hand • Front Support Legs: No • Bucket Grid: Yes

05 Frequently asked questions

What is supplied with the unit?

The combination slop hopper and wash basin is supplied with a high-level cistern and pull-rod flush mechanism. A bucket grid and front support legs are included only when selected in the configuration.

Can I choose the cistern and hopper side?

Yes. Choose Left Hand or Right Hand under Cistern Orientation. The cistern and slop hopper are on the same selected side; match the configuration to the room and plumbing layout.

How do I select the bucket grid and support legs?

Choose Yes or No separately for Bucket Grid and Front Support Legs. Selecting one does not automatically include the other. The selected configuration identifies what is included.

What does the optional bucket grid do?

The stainless steel grid is hinged over the hopper, has rubber bumpers and lifts through 90 degrees to give access to the hopper.
