05 Frequently asked questions

Where is this model used?

It is intended for waste disposal in healthcare and institutional sluice rooms, including hospital and clinic dirty utility rooms.

What flushing components are supplied?

The neutral hopper excludes the flushing mechanism, flush inlet and integral flushing rim. The supporting stand uses 40 × 40 mm square stainless steel tube legs.

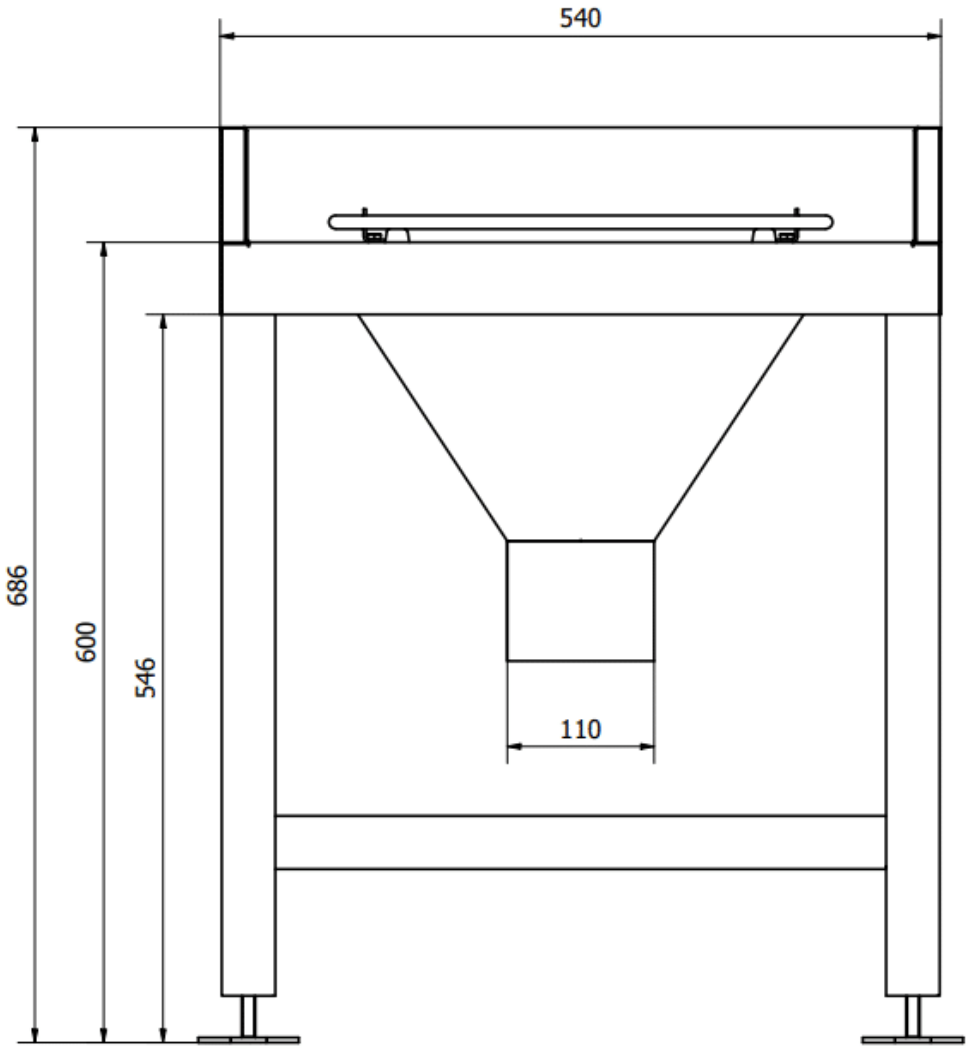

What is the bucket grid for?

The hinged grid supports a bucket over the hopper and folds up to provide access for cleaning.

How is this hopper supported?

Stainless steel legs support the hopper from the floor.
