01 Product description and specification

Product description	Free-standing stainless steel baby bath for dedicated bathing areas, with the basin and supporting structure combined in one unit. Manufactured from Grade 304 stainless steel, this unit features a 1.2 mm thick construction with a smooth, brushed finish for enhanced corrosion resistance and easy cleaning. The bath incorporates a semi-circular bowl ergonomically designed for infant bathing comfort and ease of use by staff or caregivers. Key specifications and features: • Right-hand orientation bowl. • External Length: 1320 mm. • Material: Grade 304 stainless steel. • Thickness: 1.2 mm (heavy-duty construction). • Bowl Shape: Semi-circular for optimal support and water containment. • Splashback Height: 150 mm to rear – protects walls from water ingress. • Legs: Heavy-duty stainless steel legs. • Feet: Height-adjustable feet for uneven floors and levelling. • Waste Outlet: 40 mm pre-punched outlet hole – compatible with standard fittings. • Finish: Brushed satin for easy cleaning and professional appearance. • Mounting: Free-standing – no wall support required. • Weight capacity: Suitable for repeated daily use in clinical and institutional settings. Recommended Applications: • Maternity wards and delivery suites. • Pediatric and neonatal care units. • Early childhood development centres. • Institutional nurseries and special care units. • Healthcare and hygiene-focused facilities. Optional extras (available on request): • Plug and waste kit. • Custom lengths or left-hand orientation.
