01 Product description and specification

Product description	Lockable free-standing stainless steel boot rack for organising footwear in changing rooms and production facilities. It is available in various capacities to accommodate 8, 12, 16, 20, 24, or 36 pairs of boots, making it adaptable for operations of different sizes. Each boot slot features individual lockable tabs, allowing for the secure storage of boots using padlocks (optional) to prevent unauthorized use, loss, or contamination. This feature is especially beneficial in controlled environments where hygiene and personal protective equipment (PPE) security are critical. With its stationary free-standing design, this boot rack remains firmly in place, ensuring stability without the need for mounting or mobility features. Its space-efficient construction maximizes storage capacity while maintaining easy access to footwear, contributing to a well-organized and hygienic work environment.
