01 Product description and specification

Product description	Wall-mounted Grade 304 stainless steel paper roll dispenser for workshop, wash-down and production cleaning areas. Fabricated from Grade 304 stainless steel, it offers excellent corrosion resistance and long service life, even in demanding settings such as food production facilities, workshops, healthcare centres, and laboratories. The dispenser features a robust tubular frame construction, ensuring stability and ease of maintenance, whilst the smooth stainless steel finish resists dirt and facilitates effective cleaning. Designed to accommodate paper rolls up to 210 mm in width, the unit provides an efficient means of accessing disposable wiping paper where cleanliness and convenience are critical. A serrated cutting blade is integrated into the design, enabling clean and precise tear-off of paper sheets without fraying. The open tubular design also allows for quick visual checks of remaining roll quantity, supporting efficient consumable replacement scheduling. Installation is straightforward with drop-on type wall mounting brackets and pre-punched Ø6 mm mounting holes for secure fixing. The wall-mounted configuration ensures that work surfaces remain clear, reducing clutter and maintaining operational efficiency in busy environments. The dispenser is supplied without paper roll, enabling users to select the grade and ply of paper most suited to their application. Engineered for ease of use, durability, and hygiene, the B30725 is suited to deployment in settings where controlled dispensing of wiping materials is essential to workflow and cleanliness.
Short Form Specification	SPECIFICATION USE Use this description when specifying this product range. Basterfield B30725(112). Grade 304 Wall-Mounted Paper Roll Dispenser. Designed to accommodate paper rolls up to 210 mm in width, the unit provides an efficient means of accessing disposable wiping paper where cleanliness and convenience are critical. Installation is straightforward with drop-on type wall mounting brackets and pre-punched Ø6 mm mounting holes for secure fixing.

02 Models and configurations

MODEL	DESCRIPTION	PUBLISHED CONFIGURATION
B30725(112)	Garage Roll Paper Dispenser Wall Mounted	Standard configuration

03 Application information

Intended applications	Hygienic Wash-Down & Cleaning
Industries	General Manufacturing, Research Laboratories

Typical lead time	10–15 working days
Warranty	12 months
