01 Product description and specification

Product description	Single-compartment PPE dispenser for keeping disposable protective equipment accessible in production areas, changing rooms and healthcare facilities. Designed to accommodate hair nets, beard covers, face masks, or shoe covers, the unit features a spacious internal compartment with dimensions of 250 mm (L) x 170 mm (W) x 220 mm (H), allowing for convenient storage and easy access. The hinged lid provides secure yet effortless refilling, ensuring PPE remains protected from contaminants while facilitating efficient replenishment. A front viewing slot enables quick visual inspection of stock levels, minimizing downtime and ensuring PPE is always available when needed. The dispenser is designed for wall mounting using keyhole slots, providing a stable and space-saving installation option. Construction and features • Durable stainless steel Construction – Made from stainless steel for superior corrosion resistance, hygiene, and longevity. • Large Capacity Storage – Spacious compartment accommodates hair nets, beard covers, face masks, or shoe covers for convenient dispensing. • Hinged Lid for Easy Refilling – Secure, hinged lid design allows for quick and hassle-free replenishment while keeping PPE protected. • Front Viewing Slot – Enables instant visibility of stock levels, preventing shortages and ensuring timely refills. • Wall-Mounted Design – Keyhole slots allow for secure, space-saving installation in any facility. • Versatile Application – Ideal for use in food processing plants, medical facilities, cleanrooms, laboratories, and industrial hygiene areas. • Compact and Space-Efficient – Dimensions of 250 mm (L) x 170 mm (W) x 220 mm (H) make it suitable for various workplace environments.
