01 Product description and specification

Product description

Stainless steel glove box holder for keeping boxed disposable gloves organised and accessible at the point of use.

Constructed from 1.2 mm thick stainless steel (Grade 304), this dispenser offers exceptional resistance to corrosion, staining, and wear, ensuring long-term reliability in demanding settings.

Its open-front design allows users to quickly retrieve gloves without the need to open lids or doors, maintaining hygienic, touch-free access. The unit is designed with pre-drilled keyhole slots for quick and easy wall mounting, allowing secure installation with minimal effort.

The B30847 is suited to applications where hygiene and durability are essential, including hospitals, clinics, laboratories, commercial kitchens, food processing plants, and cleanrooms. Its sleek, stainless steel finish not only enhances aesthetic appeal but also ensures easy cleaning and maintenance, reducing contamination risks.

Manufactured in South Africa, this glove box holder is built to meet the rigorous demands of professional environments.

Construction and features

- stainless steel Construction – Manufactured from Grade 304 stainless steel, ensuring superior resistance to corrosion, staining, and chemical exposure.
- Heavy-Duty Design – Constructed with 1.2 mm thick stainless steel for maximum strength and durability in demanding environments.
- Quick & Secure Wall Installation – Pre-drilled keyhole slots allow the dispenser to be mounted easily and securely on walls, ensuring stability and convenience.
- Versatile Application – Suitable for medical, laboratory, food service, pharmaceutical, and industrial environments, where frequent glove use is required.
- Long-Term Cost Savings – Durable stainless steel construction minimizes wear and tear, reducing the need for frequent replacements compared to plastic alternatives.
- Manufactured in South Africa – Designed and built to manufacturing standards, supporting local industry and quality assurance.

Applications

- Healthcare & Medical Facilities – Hospitals, clinics, dental practices, and surgical rooms.
- Laboratories & Cleanrooms – Scientific research, pharmaceutical manufacturing, and controlled environments.
- Food Service & Processing – Commercial kitchens, food handling, and catering environments.
- Industrial & Manufacturing – Hygiene-critical industrial applications, such as chemical handling and sanitation workspaces.

Short Form Specification

SPECIFICATION USE

Use this description when specifying this product range.

Basterfield B30847. Stainless Steel Glove Box Holder. Long-Term Cost Savings – Durable stainless steel construction minimizes wear and tear, reducing the need for frequent replacements compared to plastic alternatives.

B30847

Standard configuration

The B30847 Stainless Steel Glove Box Holder is a heavy-duty, hygienic storage solution designed to provide efficient and easy access to disposable gloves in high-usage environments. Constructed from 1.2mm thick stainless steel (Grade 304), this dispenser offers exceptional resistance to corrosion, staining, and wear, ensuring long-term reliability in demanding settings.

Its open-front design allows users to quickly retrieve gloves without the need to open lids or doors, maintaining hygienic, touch-free access. The unit is designed with pre-drilled keyhole slots for quick and easy wall mounting, allowing secure installation with minimal effort.

The B30847 is ideal for applications where hygiene and durability are essential, including hospitals, clinics, laboratories, commercial kitchens, food processing plants, and cleanrooms. Its sleek, stainless steel finish not only enhances aesthetic appeal but also ensures easy cleaning and maintenance, reducing contamination risks.

Manufactured in South Africa, this high-quality glove box holder is built to meet the rigorous demands of professional environments.

Key Features & Benefits

- **Premium Stainless Steel Construction** – Manufactured from Grade 304 stainless steel, ensuring superior resistance to corrosion, staining, and chemical exposure.
- **Heavy-Duty Design** – Constructed with 1.2mm thick stainless steel for maximum strength and durability in demanding environments.
- **Hygienic & Easy to Clean** – The smooth stainless steel surface is non-porous, making it resistant to bacteria buildup and simple to wipe down with disinfectants.
- **Open-Front Access** – Enables quick and easy retrieval of gloves, reducing handling time and minimizing the risk of cross-contamination.
- **Quick & Secure Wall Installation** – Pre-drilled keyhole slots allow the dispenser to be mounted easily and securely on walls, ensuring stability and convenience.
- **Versatile Application** – Suitable for medical, laboratory, food service, pharmaceutical, and industrial
