## 01 Product description and specification

Product description

1030mm wall-mounted double wash trough for construction sites, workshops and cleaning areas. Choose stainless steel grade, thickness, optional front support legs and an extended splashback.

Short Form Specification

SPECIFICATION USE

Use this description when specifying this product range.

Wall-mounted double contractors wash trough, 1030mm length, with two troughs, 300mm trough depth, fully welded construction, radius-coved corners, satin brushed finish and gallows wall brackets. Standard Grade 430 / 0.9mm; Grade 304 and 1.2mm options; Grade 316 and 1.5mm advanced customisations. Every configuration has independently selectable front support legs and standard or extended splashback options.

## 02 Models and configurations

Common to all models: Length: 1030 mm · Number of Troughs: 2

| ITEM CODE                   | MATERIAL                  | MATERIAL THICKNESS | EXTENDED SPLASHBACK | FRONT SUPPORT LEGS |

03 Functional features

|    |                                                                                                                                                                                                    |
|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 01 | <b>Wall-Mounted Installation</b><br>Heavy-duty gallows wall brackets support the wash trough.                                                                                                      |
| 02 | <b>1030mm Double Trough</b><br>The 1030mm-long unit has two troughs for wash-up and cleaning tasks.                                                                                                |
| 03 | <b>300mm Trough Depth</b><br>Deep troughs provide space for washing equipment and rinsing mops.                                                                                                    |
| 04 | <b>Grade and Thickness Choices</b><br>Grade 430 and 0.9mm are standard. Choose Grade 304 or 1.2mm options, with Grade 316 and 1.5mm under advanced customisations.                                 |
| 05 | <b>Welded Stainless Steel Construction</b><br>Fully welded construction with radius-coved corners and a satin brushed finish.                                                                      |
| 06 | <b>Splashback and Support Options</b><br>Choose a standard or extended splashback and add or omit front support legs on every published configuration. Both options can be selected independently. |

|                       |                                                                                      |
|-----------------------|--------------------------------------------------------------------------------------|
| Intended applications | Commercial Wash Troughs & Basins, General Handwashing, Hygienic Wash-Down & Cleaning |
| Industries            | Construction, General Manufacturing, Government & Public Sector                      |

05 Supply and support

|                   |                    |
|-------------------|--------------------|
| Typical lead time | 10–15 working days |
| Warranty          | 12 months          |
