01 Product description and specification

Product description	The B36520350 corner wash basin fits into a washroom corner using integral wall fixings. It is manufactured from 0.9 mm Grade 304 stainless steel. The basin includes a standard 40 mm plug-and-waste outlet hole and can be punched for one or two tap holes. Specify the tap-hole arrangement required for the installation.
Short Form Specification	SPECIFICATION USE Use this description when specifying this product range. Basterfield B36520350. Grade 304 stainless steel corner wash basin; 0.9 mm material thickness; integral wall fixings; 40 mm plug-and-waste outlet hole; one or two tap holes as specified.

02 Models and configurations

MODEL	DESCRIPTION	PUBLISHED CONFIGURATION
B36520350	Wall Mounted Wash Hand Basin Because Stainless Steel Is Easy and Quick to Clean It Is the Ideal Choice of Material for Wash Hand Basins. The Non-Porous, Impervious Nature of Its Surface Means That It Is as Hygienic in Use as Ceramic Ware but Has the Added Advantage of Being Able to Withstand Impact and Sudden Shock. Like Plastic It Is Comparatively Light in Weight and So Is Appropriate for Installations Where Weight Is a Criterion, but with the Further Benefit of Great Strength and Longevity. The Stainless Steel Corner Hand Wash Basin Is the Ideal Solution Where Space Is Limited. It Can Be Fitted Easily into the Corner of Any Room, and Has a Mitred Minimum Profile. Standard Features: • Grade 304 (18/10) Stainless Steel • Integral Wall Fixing Kits; No Additional Brackets Etc Required • Tap Holes Punched to Suit (1 or 2) • Manufactured from Stainless Steel 0.9mm Thick Material • Standard 40mm Plug and Waste Outlet Hole Mounting Method: Screwed to Wall.	Standard configuration
