01 Product description and specification

Product description	Small stainless steel wall-mounted wash hand basin, 350 × 350 mm in plan, with a Ø300 mm bowl and Ø40 mm waste opening. Integral wall fixing kits are supplied; no additional support brackets are required.
Short Form Specification	**SPECIFICATION USE** Use this description when specifying this product range. Basterfield B36522 small stainless steel wall-mounted wash hand basin; 350 × 350 mm plan size; Ø300 mm bowl; integral wall fixing kits supplied; no additional support brackets required; Ø40 mm plug-and-waste opening. Confirm tap holes, tapware and waste fittings with the quotation.

02 Functional features

01 **Small wall-mounted format**
The published drawings show a 350 × 350 mm plan size and a Ø300 mm bowl for a compact wall-mounted handwashing point.

02 **Integral fixing kits**
Wall fixing kits are supplied, without a requirement for additional support brackets in the standard arrangement.

03 **Ø40 mm waste opening**
The basin has a preformed opening for a plug and waste fitting. Confirm the required plumbing fittings with the quotation.

03 Application information

Intended applications	Commercial Wash Troughs & Basins, General Handwashing
Industries	Government & Public Sector

04 Supply and support

Typical lead time	10–15 working days
Warranty	12 months

05 Frequently asked questions

Are additional support brackets required?

Integral wall fixing kits are supplied, so additional support brackets are not required for the standard basin arrangement. Confirm that the wall and installation layout suit the fixing method.

What is the waste-opening size?

The basin has a Ø40 mm plug-and-waste opening. Confirm the waste fitting and trap required for the installation when requesting a quotation.

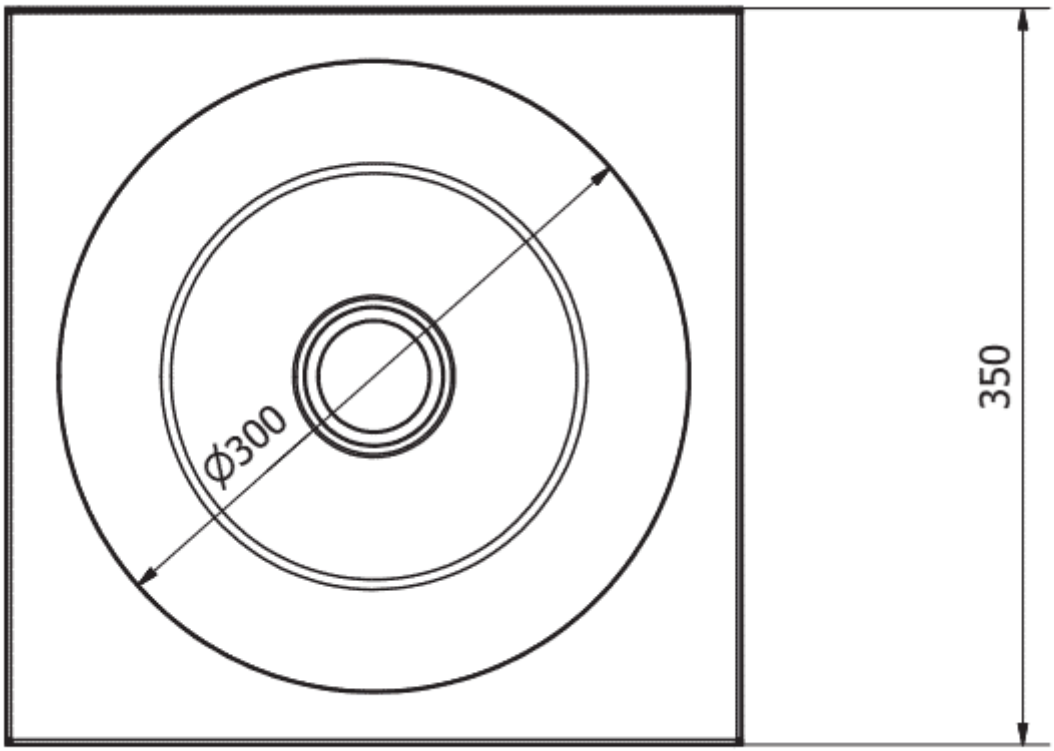

Does the basin include taps and a waste fitting?

The catalogue identifies the basin and its integral fixing kits. Ask for tapware, the waste fitting and trap to be itemised in the quotation so the supplied scope is clear.

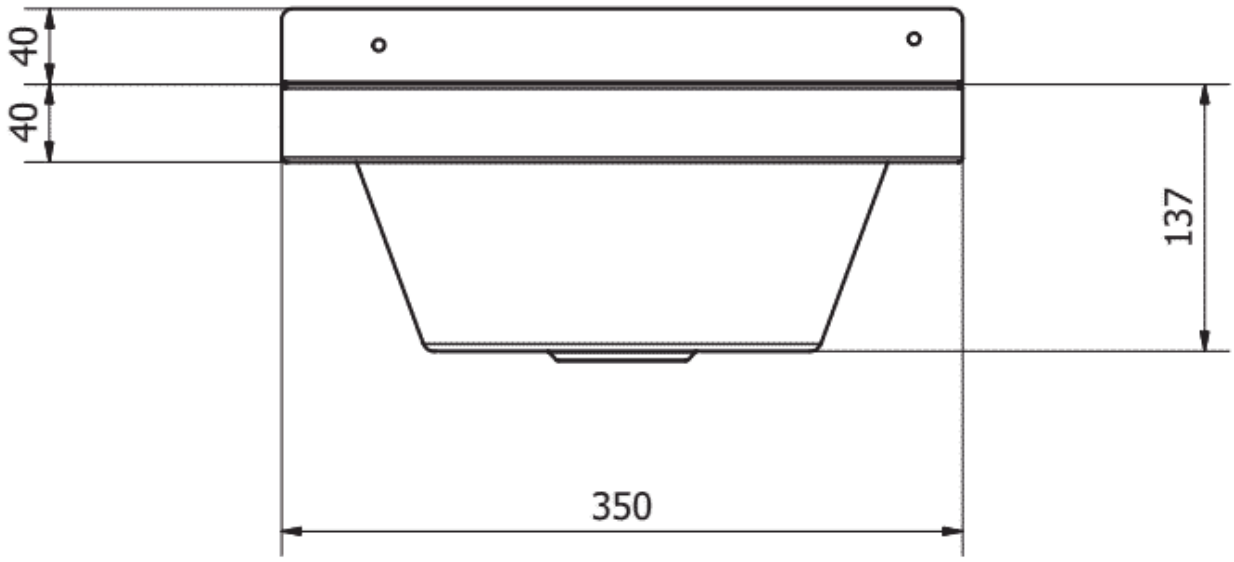

What are the basin dimensions?

The published product drawings show a 350 × 350 mm plan size with a Ø300 mm bowl. Check this footprint against the available wall space, and confirm the tap-hole arrangement and water and waste connection positions.
