01 Product description and specification

Product description	The B36528 security wash basin conceals plumbing within a shrouded body for correctional and other institutional washrooms. It is manufactured from 1.2 mm Grade 304 stainless steel with a satin-brushed finish. Overall dimensions are 360 × 366 × 400 mm. The round bowl is 290 mm in diameter and 100 mm deep, with radiused corners. A 50 mm integral rear splashback and 40 mm waste outlet hole are provided. A removable base access panel is secured with tamper-resistant screws for maintenance access. Specify an anti-vandal timed-flow pillar tap or the required tap-hole preparation. The unit is wall mounted.
