05 Specification notes

Configuration description

This 2000mm double bowl utensil sink is the heavy duty model, manufactured from 1.5mm Grade 304 stainless steel. It provides separate washing and rinsing spaces for large utensils, meat trays and removable processing equipment.

The sink measures 2000mm (L) x 650mm (W), with a 900mm working height and a 150mm rear splashback, giving an overall height of 1050mm. Each centre-positioned bowl measures 900mm (L) x 500mm (W) x 600mm (D).

40x40mm square tube cross bracing supports the basins, and a 70mm tapware landing provides space for tapware. Each bowl has a pre-punched waste outlet hole for a 1½-inch BSP waste fitting.

Waste fittings and an overhead pre-rinse spray assembly with mixer taps are available separately.

Short Form Specification

> Use this description when specifying this model.

Basterfield B37354(DC-115-2000). Utensil Sink Double Bowl Centre Stainless Steel Grade 304 1.5mm Thickness 2000mm (L) x 650mm (W) x 1050mm Overall Height with 900mm Working Height, Two Bowls Each 900mm (L) x 500mm (W) x 600mm (D), 150mm (H) Rear Splashback, 70mm Tapware Landing, 40x40mm Square Tube Cross Bracing and Pre-Punched Holes for Ø1 1/2inch BSP Wastes, One per Basin. Waste Fittings and Rinse Spray Optional; Supplied Separately.

Detailed specification

- Model: B37354(DC-115-2000)
- Construction: Heavy Duty, Advanced Customisation
- Material: Stainless Steel Grade 304
- Material Thickness: 1.5mm
- Length: 2000mm
- Width: 650mm
- Working Height: 900mm
- Rear Splashback Height: 150mm
- Overall Height: 1050mm
- Bowls: Two, Centre Positioned
- Each Bowl: 900mm (L) x 500mm (W) x 600mm (D)
- Basin Support: 40x40mm Square Tube Cross Bracing
- Waste Hole per Basin: Pre-Punched for Ø1 1/2inch BSP Waste Fitting
- Waste Fittings: Optional, Supplied Separately
- Tapware Landing: 70mm

06 Frequently asked questions

What is this utensil sink used for?

Washing and rinsing large utensils, meat trays and removable processing equipment in commercial kitchens, food-production facilities, bakeries and catering wash-up areas.

What is the difference between the standard and heavy duty models?

Both use Grade 304 stainless steel. The standard model has 1.2mm material thickness; the heavy duty option has 1.5mm material thickness and is available through advanced customisation.

Are waste fittings included with the sink?

Waste fittings are supplied separately. The optional Dura 817 chrome-plated waste with plug and brass backnut (04PF_DUR-817) is available for each bowl; two are required for this double bowl sink.

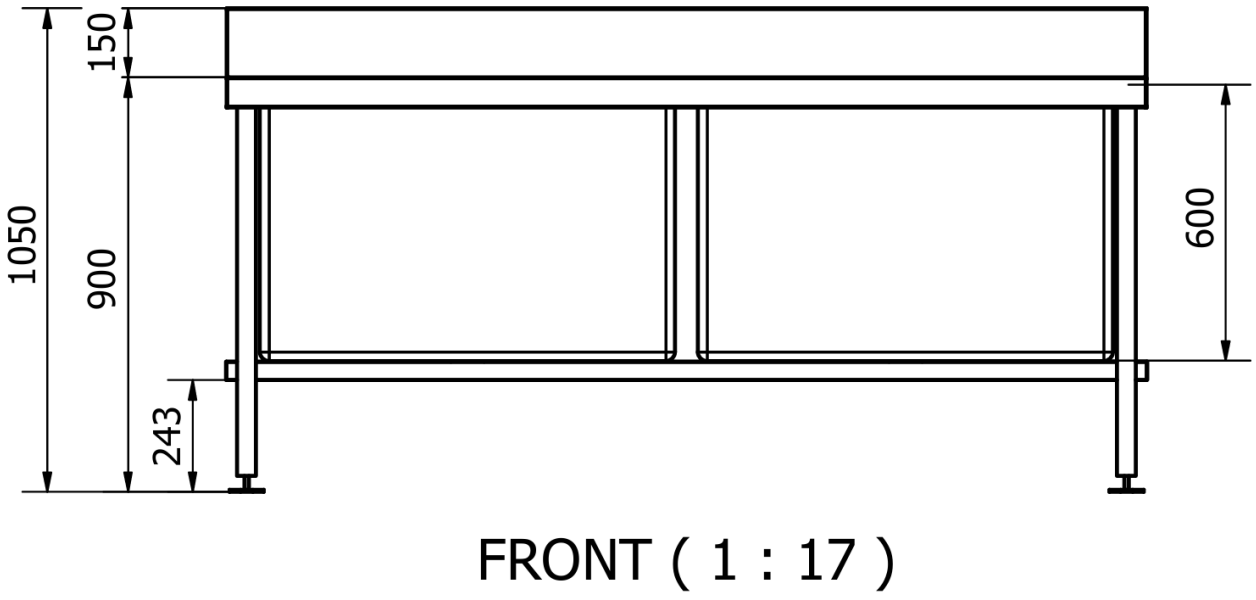

Is a pre-rinse spray available?

The overhead pre-rinse spray assembly with mixer taps (04TM-PRS0001) is available as a separately priced accessory.

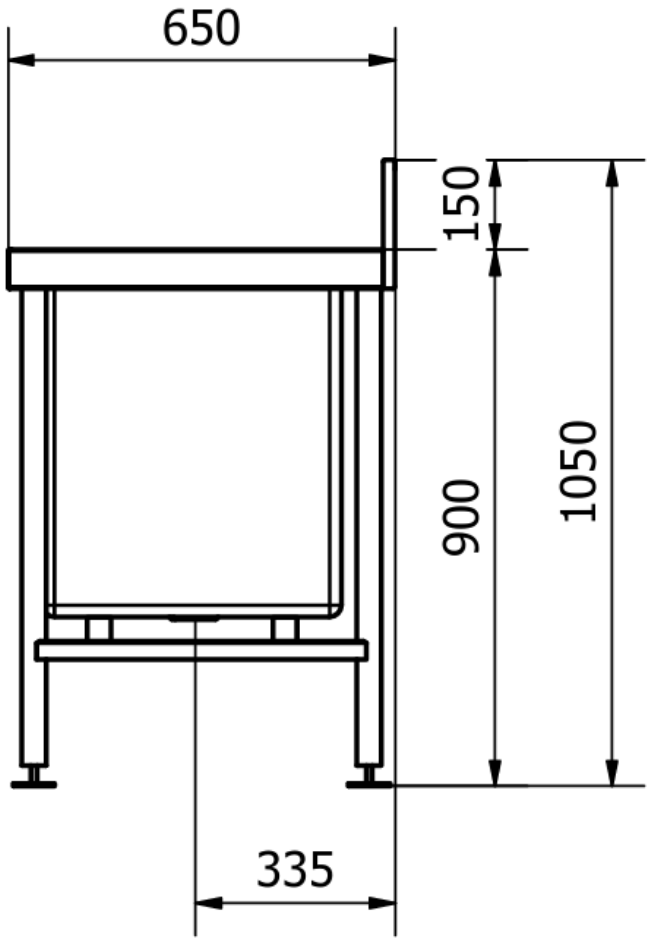

How do I choose the right size?

Compare your largest trays and utensils with the bowl dimensions shown for the selected item, allowing room to handle and turn them during washing. Check the overall dimensions against the space available in your wash-up area.
