04 Specification notes

Configuration description

The Basterfield B38132(P30) Eco wall-mounted rack provides storage for 30 boot pairs (60 individual boots). Use it to organise work boots at a dedicated storage point in changing rooms, locker rooms and footwear or PPE storage areas.

The rack is 1080 mm long and 1599 mm high overall. The stated height is the rack height, separate from its mounting position above the floor.

Confirm the wall projection and boot clearance before installation. Use a suitable load-bearing wall or support structure with fixings selected for the substrate and loaded rack. Allow space for access and cleaning around the installation.
