## 01 Product description and specification

**Product description**

Eco wall-mounted boot rack for organising work boots in changing rooms, locker rooms and footwear storage areas. Choose capacity for 4, 8, 12, 16, 20, 24, 30 or 36 boot pairs, with model-specific lengths and overall heights to suit the available wall space.

**Short Form Specification**

**SPECIFICATION USE**
Use this description when specifying this product range.

Basterfield B38132 Eco wall-mounted boot rack to specification reference B38132{PSS}. Select capacity for 4, 8, 12, 16, 20, 24, 30 or 36 boot pairs. Overall length and rack height as scheduled for the selected model. Confirm wall projection, suitable wall support, fixings and access clearances for the installation. Mounting height above the floor is separate from the listed overall rack height.

## 02 Configuration options

| | |
|---|---|
| **Boot Pairs** | 4; 8; 12; 16; 20; 24; 30; 36 |

Options vary by model; not every combination is available. Use the product page to select a model.

## 03 Functional features

01 **Eight boot-pair capacities**
Select storage for 4, 8, 12, 16, 20, 24, 30 or 36 pairs of boots.

02 **Wall-mounted storage**
A dedicated boot-storage position for changing rooms, locker rooms and PPE storage areas.

03 **Four overall lengths**
Model lengths are 1050, 1080, 1310 or 1570 mm. Select the required capacity and check its length.

04 **Model-specific overall heights**
Rack heights range from 409 to 1599 mm. Check the selected model; mounting height above the floor is separate.

## 04 Application information

| | |
|---|---|
| **Intended applications** | Change Rooms & Locker Rooms, Footwear Storage & Drying, PPE Storage & Dispensing |
| **Industries** | Commercial Laundries, Construction, Dairy & Beverage Processing, Farms & Orchards, Fish & Seafood Processing, Food & Beverage Processing, Fresh Produce & Packhouses, General Manufacturing, Hospitals & Clinics, Institutional & Contract Catering, Meat & Poultry Processing, Mining & Quarrying, Pharmaceutical Manufacturing, Research Laboratories, Veterinary Services |

## 05 Supply and support

| | |
|---|---|
| **Typical lead time** | 10–15 working days |
| **Warranty** | 12 months |

## 06 Frequently asked questions

**How many boots does each model hold?**

The range holds 4, 8, 12, 16, 20, 24, 30 or 36 boot pairs. One pair means two boots. The capacity is shown by the selected option and its full model code.

**What are the model dimensions?**

Dimensions are length x overall rack height. P04: 1050 x 409 mm. P08: 1050 x 647 mm. P12: 1050 x 924 mm. P16: 1050 x 1134 mm. P20: 1080 x 1361 mm. P24: 1310 x 1134 mm. P30: 1080 x 1599 mm. P36: 1570 x 1590 mm.

**Does the listed height include the mounting height above the floor?**

No. The listed height is the overall height of the rack. Set its mounting position separately to suit access, the footwear being stored and cleaning around the installation.

**What should be checked before installation?**

Confirm the wall projection, access and boot clearance. Use a suitable load-bearing wall or support structure and fixings selected for the substrate and loaded rack. Keep circulation routes clear.

**Where can the rack be used?**

Use it for organising work boots in changing rooms, locker rooms and footwear or PPE storage areas. Typical workplaces include food-processing premises, farms, laundries, manufacturing, mining and construction, with further uses in support areas where work boots are worn.

**How do I choose between capacities?**

Choose the number of boot pairs first, then compare the length and height of that model with the available wall space. A larger capacity does not always mean a taller rack; for example, P24 is 1310 x 1134 mm while P30 is 1080 x 1599 mm.
