01 Product description and specification

Product description

Grade 304 stainless steel wall-mounted boot rack with square tubular prongs and a choice of boot-pair capacities.

The boot rack is a sturdy wall mounted unit designed to allow hassle-free cleaning and racking of wellington boots. The unit itself is also easy to clean and maintain. Integral wall mounting brackets add to the durability of the boot rack and allows for easy installation within the changing room. The boot rack features individual stainless steel storage prongs per boot that are fitted with black plastic end caps. For additional hygiene, stainless steel end caps can be specified.

We also have freestanding, mobile and lockable boot rack options available. If you need wall-mounted racking for shoe storage then our B38134 Wall Mounted stainless steel Shoe Rack might be just what you are looking for!

Construction and features

- Available in 12, 16, 20, 24 and 36 pair configurations.
- Integral wall mounting brackets for easy installation.
- Manufactured from hygienic Grade 304 stainless steel.
- Easy-to-clean design.

Short Form Specification

SPECIFICATION USE

Use this description when specifying this product range.

Shall be Basterfield B38135 Wall Mounted Boot Rack with stainless steel Square Tubular Prongs, manufactured from Grade 304 stainless steel with individual square tubular boot-support prongs, and integral wall-mounting brackets. Available in 8, 12, 16, 20, 24 and 36-pair configurations, with optional stainless steel end caps, for hygienic wellington boot storage in food production, healthcare, laboratory and industrial changing-room applications.
