01 Product description and specification

Product description

Freestanding, single-sided Eco boot rack in Grade 304 stainless steel with solid round-bar boot supports. Choose storage for 8, 12, 16, 20, 24 or 36 boot pairs. All models are 500 mm wide, with lengths and heights matched to the selected capacity, for changing rooms and footwear storage areas.

Short Form Specification

SPECIFICATION USE
Use this description when specifying this product range.

Basterfield B38136 Eco freestanding single-sided boot rack, manufactured from Grade 304 stainless steel with a welded frame and solid round-bar boot-support prongs, to specification reference B38136{PSS}. Select storage for 8, 12, 16, 20, 24 or 36 boot pairs. Overall width 500 mm; length and height as scheduled for the selected model. Position on a suitable level floor with access and cleaning clearances.

02 Configuration options

Boot Pairs	8; 12; 16; 20; 24; 36

Options vary by model; not every combination is available. Use the product page to select a model.

03 Functional features

01 **Six boot-pair capacities**
Choose storage for 8, 12, 16, 20, 24 or 36 pairs of boots.

02 **Grade 304 stainless steel**
Stainless steel frame and boot supports for organised workplace footwear storage.

03 **Solid round-bar prongs**
Individual solid round-bar supports hold boots clear of the floor.

04 **Freestanding, single-sided access**
Floor-standing rack with boot storage accessed from one side.

05 500 mm width across the range

Every model is 500 mm wide. Check the length and height for the selected capacity.

06 Open storage layout

The open arrangement provides air circulation around stored footwear and access for cleaning around the rack.

04 Application information

05 Supply and support

Typical lead time	10–15 working days
Warranty	12 months

06 Frequently asked questions

How many boots does each model hold?

The capacities are 8, 12, 16, 20, 24 and 36 boot pairs. One pair means two boots. Select the option for the number of pairs you need to store.

What are the overall dimensions?

All dimensions are length x width x height. P08 and P12: 1065 x 500 x 1000 mm. P16: 1065 x 500 x 1250 mm. P20: 1065 x 500 x 1500 mm. P24: 1065 x 500 x 1750 mm. P36: 1598 x 500 x 1500 mm.

Why do the 8- and 12-pair models have the same dimensions?

Both options are specified at 1065 x 500 x 1000 mm overall, with capacities of 8 and 12 boot pairs respectively. Select by the stated pair capacity as well as the available floor space.

What is the rack made from?

The B38136 Eco rack is manufactured from Grade 304 stainless steel with a welded frame and solid round-bar boot-support prongs.

How does B38136 differ from B38137?

B38136 is the Eco single-sided freestanding rack with solid round-bar prongs. B38137 is the separate single-sided freestanding rack with square tubular prongs. Check the selected product and capacity when ordering.

Where can the rack be used?

Use it for boot storage in changing rooms, locker rooms and PPE storage areas. Typical workplaces include food-processing premises, farms, laundries, manufacturing, mining and construction, as well as pharmaceutical, veterinary, healthcare, laboratory and catering support areas where work boots are worn.

Does the rack wash, disinfect or actively dry boots?

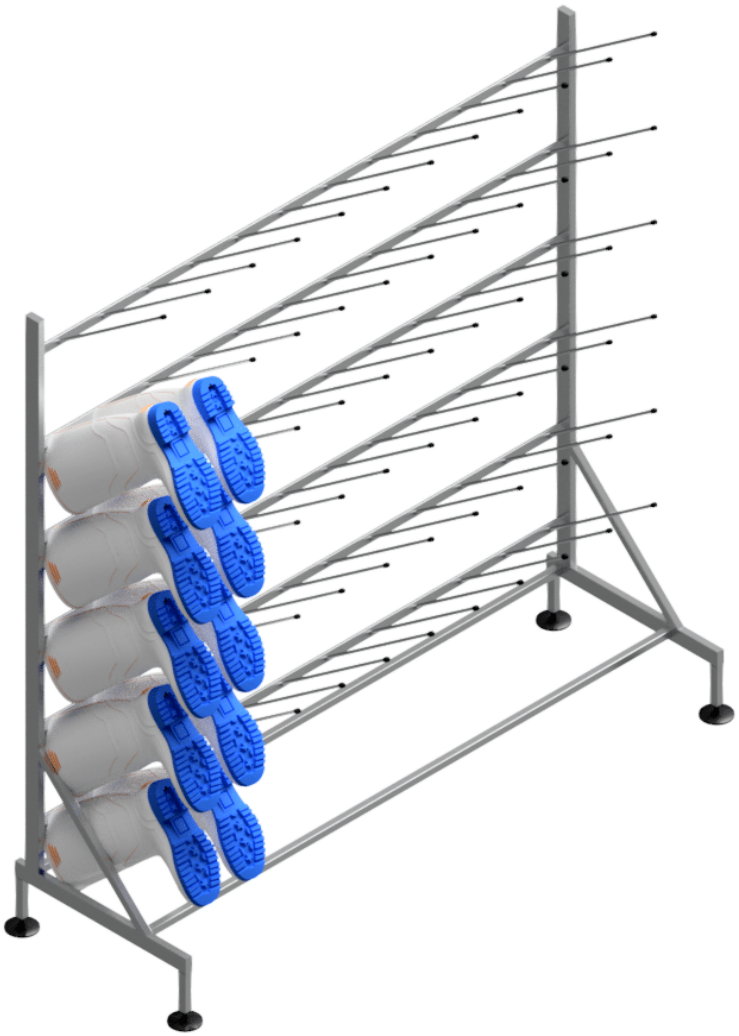

The rack provides storage with air circulation around the footwear. It has no specified powered drying, washing or disinfection system; follow the workplace procedure for cleaning and drying boots.

How should the rack be positioned and maintained?

Place it on a suitable level floor and allow access from the storage side, circulation space and cleaning clearance. Clean with products suitable for Grade 304 stainless steel and inspect the frame and boot supports regularly.
