01 Product description and specification

Product description	Step-over changing-room bench with a single zone divider for organising footwear changes at a defined boundary. Constructed entirely from Grade 304 stainless steel, the bench is corrosion-resistant, robust, and fully hygienic, with a fully welded frame and smooth, crevice-free surfaces that are easy to clean and disinfect. The bench is available with zero, one, or two-tier open shoe shelves (accessible only from the clean side), and standard lengths of 1000 mm, 1500 mm, and 2000 mm, with custom sizes available upon request. The integrated adjustable levelling feet ensure stability on uneven surfaces, while the clean zone panel on a single side distinguishes it from the dual side divider version (B38220(DZD)). The Single Side Clean Zone Divider model is suited to any facility implementing strict hygiene zoning where movement between areas must be carefully managed, but where two-sided access to footwear storage is not required.
Short Form Specification	SPECIFICATION USE Use this description when specifying this product range. Basterfield B38220(SZD). Step-Over Change Room Bench with Single Zone Divider. Length: 1000 mm, 1500 mm, 2000 mm. Shoe Shelf Tiers: 1, 2. The bench is available with zero, one, or two-tier open shoe shelves (accessible only from the clean side), and standard lengths of 1000 mm, 1500 mm, and 2000 mm, with custom sizes available upon request.
