01 Product description and specification

Product description

Grade 304 stainless steel square floor drain with a flange-type design, 240 x 240 mm plan dimensions, 210 mm height and a 110 mm diameter side outlet.

Short Form Specification

SPECIFICATION USE
Use this description when specifying this product range.

Basterfield B56201(240x210) square floor drain; Grade 304 stainless steel; flange-type design; 240 x 240 mm plan dimensions; 210 mm height; 110 mm diameter side outlet.

02 Technical specifications

PARAMETER	VALUE	UNIT
Drain Shape	Square	–
Waste Outlet Orientation	Side	–

03 Functional features

01 Side Outlet for Lateral Pipe Routing

The 110 mm diameter side outlet allows the drainage pipe to connect at the side of the unit, helping accommodate layouts that require a lateral connection.

02 Compact Square Footprint

The 240 x 240 mm plan dimensions provide a defined collection point that can be coordinated with the floor layout and surrounding fixtures.

03 Grade 304 Stainless Steel

Stainless steel construction provides a cleanable drainage surface for wet service areas. Use cleaning products and methods suitable for Grade 304 stainless steel.

04 Flange-Type Floor Interface

The flange-type design provides an interface to coordinate with the surrounding floor construction. Confirm the floor finish and waterproofing detail for the project.

05 Defined Installation Height

The stated 210 mm drain height helps the installer check available space and coordinate the drain body with the side pipe connection before installation.

04 Application information

Intended applications	Drainage & Wastewater Management
Industries	Food & Beverage Processing, Government & Public Sector, Hotels & Lodges, Institutional & Contract Catering, Restaurants & Cafés

05 Supply and support

Typical lead time	10–15 working days
Warranty	12 months

06 Frequently asked questions

What are the dimensions of this drain?

B56201(240x210) measures 240 x 240 mm in plan and 210 mm in height. It has a flange-type design.

What material is used?

The drain is manufactured from Grade 304 stainless steel.

Where is the outlet, and what size is it?

The outlet is positioned at the side of the drain and has a diameter of 110 mm.

What should I confirm before ordering?

Confirm the installation depth, outlet position, pipe connection, floor finish and waterproofing detail. Include the expected flow and loading requirements with your enquiry, quoting B56201(240x210).
