01 Product description and specification

Product description	The B65230 single-station motorised boot scrubber uses three brushes to clean boot soles and sides. An inline venturi system doses cleaning solution, with water flow controlled by a solenoid. The unit has a 220 V motor and power supply, a 3/4-inch water inlet and a threaded drainage outlet. A sloped basin directs water towards the drain, while a removable grid provides cleaning access. Electrical components are housed in a concealed box. Confirm the electrical, water and drainage connections when planning the installation.
Short Form Specification	SPECIFICATION USE Use this description when specifying this product range. Basterfield B65230. Three-brush motorised boot scrubber for soles and sides; inline venturi dosing; 220 V motor and supply; solenoid water control; 3/4-inch inlet; threaded drainage outlet; sloped basin; removable grid; enclosed electrical box.
