01 Product description and specification

Product description	Two-station walk-through boot washer and dryer with sensor activation, two 0.37 kW 380 V three-phase motors, built-in motor overload protection, peristaltic soap dosing and removable grid steps. Separate electrical supply to each station enclosure. Air-assisted drying and heating are optional.
Short Form Specification	**SPECIFICATION USE** Use this description when specifying this product range. Basterfield B65256(RS-380) motorised walk-through boot washer with consecutive wet-wash and brush-drying stations, Grade 304 stainless steel construction, independent sensor activation and two 0.37 kW four-pole 380 V three-phase motors. Motor starters include built-in overload protection. Peristaltic detergent dosing with PWM adjustment and commissioning calibration; use chemicals compatible with the PVC dosing tubing. Removable grid-style steps are standard. Provide a separate three-phase, neutral and protective-earth supply to each station enclosure, a ½″ BSP water supply at a recommended minimum 3 bar and 1½″ BSP waste pipework from each station outlet. Approximately 3–4 users/minute; maximum 250 kg per station grid. Air-assisted drying and supplementary heating are optional. 12-month parts and workmanship warranty excluding normal wear, brushes and heating elements.

02 Application information

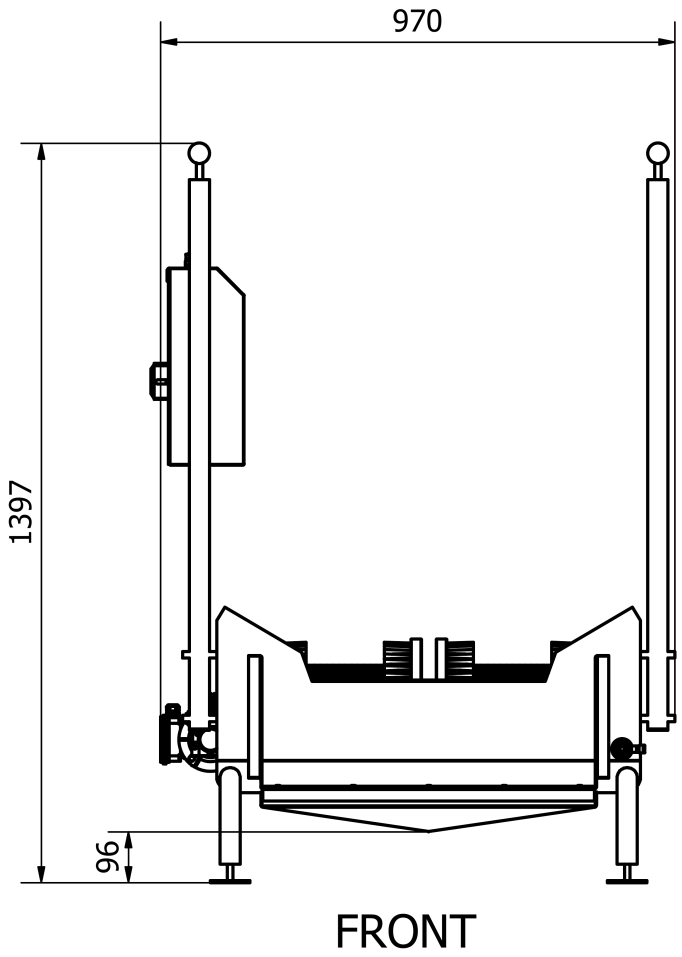

Intended applications	Footwear Cleaning and Disinfection
Industries	Food & Beverage Processing, Meat & Poultry Processing

03 Supply and support

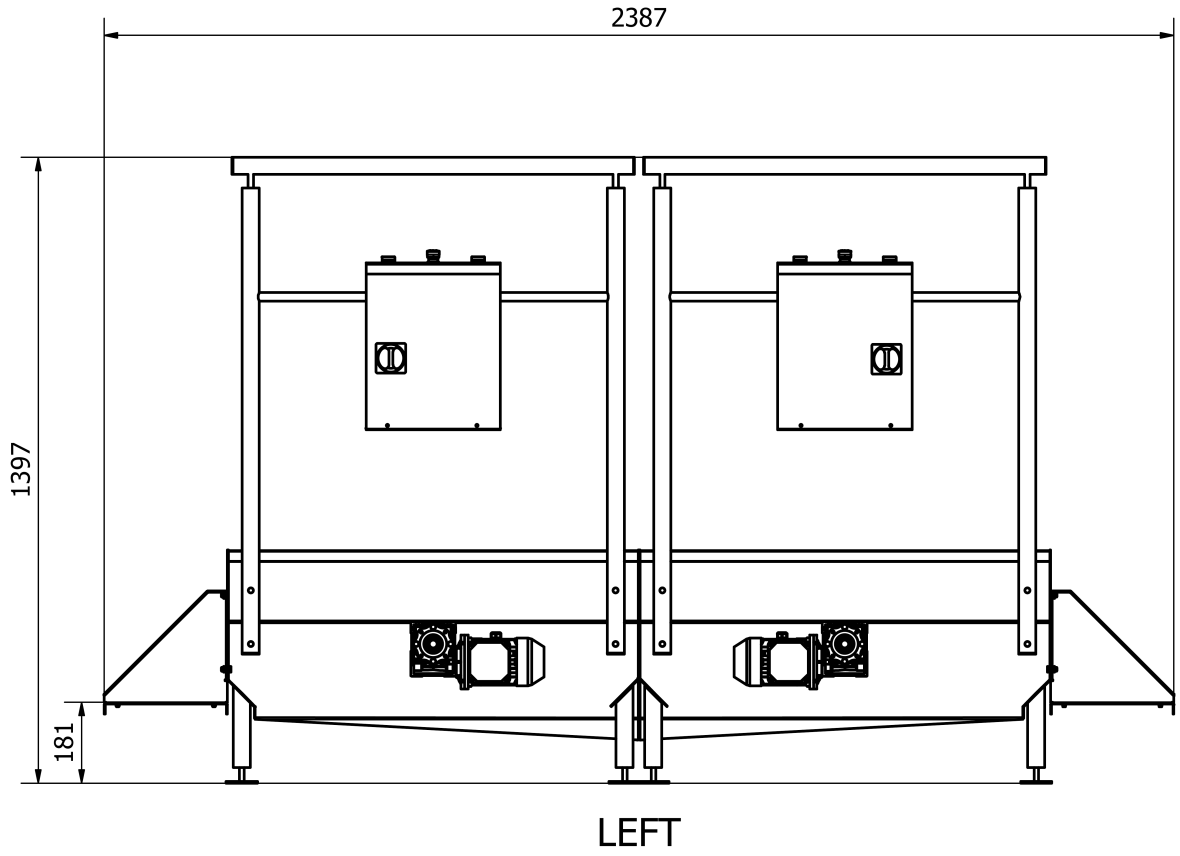

Typical lead time	10–15 working days
Warranty	12 months
