Measuring 2600 mm in length, 1000 mm in width, and 1250 mm in height. this unit offers the benefits of high user processing with a space saving design. Water flow: Solenoid activated, 3/4″ inlet valve.

02 Application information

Intended applications	Footwear Cleaning and Disinfection
Industries	Food & Beverage Processing, Meat & Poultry Processing

03 Supply and support

Typical lead time	10–15 working days
Warranty	12 months

04 Frequently asked questions

Does B65450 clean the upper part of the boot?

Yes. The motorised brush arrangement uses brushes of increasing height to clean soles, sides and upper sections of boots.

How does B65450 differ from the compact B65250?

B65450 provides sole, side and upper-boot brushing. B65250 is the compact walk-through model with three brushes for sole and side cleaning. Compare the installation space and cleaning coverage required.

What are the overall dimensions?

The listed overall dimensions are 2600 x 1000 x 1250 mm, in length x width x height order. Allow additional clearance for entry, exit and cleaning access.

Does the automatic boot washer disinfect boots?

The unit brushes boots and applies water and cleaning solution through a venturi dosing system. Any disinfection process must use a site-approved chemical, concentration and contact time; brushing and dosing alone do not demonstrate disinfection.

Who manufactures this walk-through boot scrubber?

Basterfield manufactures B65450 in South Africa. Include the site location, user flow, footwear and available services when requesting a quotation.
