01 Product description and specification

Product description	Drop-in waste disposal hopper with a Ø380mm opening, flanged lip and 100mm waste outlet. Manufactured from 1.2mm Grade 304 stainless steel for commercial washing and waste handling areas.
Short Form Specification	**SPECIFICATION USE** Use this description when specifying this product range. Basterfield B70100 Waste Disposal Hopper, Model B70100(112-0380). Drop-In Type; Stainless Steel Grade 304; 1.2mm Material Thickness; Ø380mm Opening; Flanged Lip; 100mm Waste Outlet.

02 Functional features

01 **Drop-In Installation with Flanged Lip**
The flanged lip supports the hopper on the surrounding work surface, placing the disposal opening within the work area.

02 **Grade 304 Stainless Steel**
The 1.2mm stainless steel construction provides a surface that can be wiped down as part of routine cleaning in washing and waste handling areas.

03 **Ø380mm Hopper Opening**
A 380mm diameter opening provides access to the hopper from the work surface. Confirm the separate worktop cut-out requirements before installation.

04 **100mm Waste Outlet**
The defined outlet size helps you plan the connection between the hopper and the site drainage.

03 Application information

Intended applications	Hygienic Wash-Down & Cleaning
Industries	Hotels & Lodges, Institutional & Contract Catering, Restaurants & Cafés

04 Supply and support

Typical lead time	10–15 working days
Warranty	12 months

05 Frequently asked questions

What is the B70100 waste disposal hopper used for?

The B70100 is a drop-in waste disposal hopper for installation into a work surface in commercial washing and waste handling areas.

What material and thickness are used?

The hopper is manufactured from Grade 304 stainless steel with a material thickness of 1.2mm.

How does the hopper fit into the work surface?

The hopper drops into an opening in the work surface. Its flanged lip rests on the surrounding surface to support the installation.

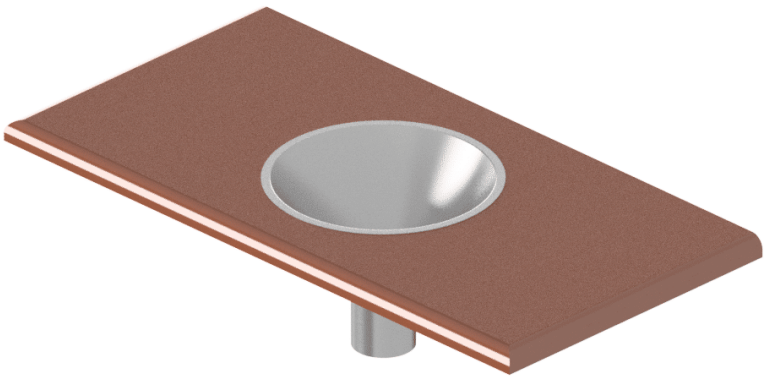

What waste outlet is provided?

The hopper has a 100mm waste outlet. Confirm the connection arrangement against the site drainage before installation.

Is Ø380mm the worktop cut-out size?

Ø380mm is the recorded hopper opening diameter. Confirm the required worktop cut-out and flange clearance from the installation details before cutting the work surface.
