01 Product description and specification

Product description	Preparation sink with a single right-hand bowl for washing and preparation tasks in commercial kitchens. Constructed from Grade 304 stainless steel with a 1.2 mm thickness, the unit offers superior corrosion resistance, structural integrity, and long-term durability. This model is available in lengths ranging from 1200 mm to 2400 mm, with standard widths of 650 mm, 700 mm, or 750 mm, and custom configurations available on request. The working height is 900 mm to the top surface, with an integral 150 mm high rear splashback to protect surrounding walls and maintain a hygienic workspace. The single right-hand bowl, measuring 500 mm (L) x 500 mm (W) x 250 mm (D), provides ample capacity for food preparation and washing tasks. A pre-punched 40 mm (1½") waste outlet accommodates standard drainage fittings, ensuring reliable performance and ease of installation. Optional undershelves can be supplied to increase storage functionality beneath the sink. These are available in Grade 430 or Grade 304 stainless steel, with either 0.9 mm (standard duty) or 1.2 mm (heavy duty) thicknesses depending on the intended load capacity. Adjustable stainless steel legs or tubular frames ensure stability and allow easy levelling on uneven floors. Designed for efficiency and durability, the E22126(SR-112) delivers outstanding hygiene performance, flexibility, and long service life in demanding commercial environments. Its robust construction and modular range of sizes make it suited to food preparation areas, production kitchens, canteens, laboratories, and institutional facilities where cleanliness, reliability, and adaptability are paramount.
Short Form Specification	SPECIFICATION USE Use this description when specifying this product range. Basterfield E22126(SR-112). Preparation Sink With Single Right-hand Bowl. Length: 1200 mm. Undershelf: No undershelf, stainless steel Grade 304 0.9 mm Thickness, stainless steel Grade 304 1.2 mm Thickness, stainless steel Grade 430 0.9 mm Thickness, stainless steel Grade 430 1.2 mm Thickness. Bowl Width: 500 mm. Bowl Length: 500 mm. This model is available in lengths ranging from 1200 mm to 2400 mm, with standard widths of 650 mm, 700 mm, or 750 mm, and custom configurations available on request.

02 Technical specifications

PARAMETER	VALUE	UNIT	TECHNICAL NOTE
Bowl Length	500	mm	The length of the bowl typically as measured from left to right.

04 Functional features

01	Hygienic stainless steel construction Smooth, non-porous surfaces are easy to clean and suitable for commercial hygiene environments.
02	Designed for commercial environments Built for repeated daily use rather than light domestic applications.
03	Stainless Steel Grade 304 construction, including framework Provides excellent corrosion resistance, durability and hygiene in normal commercial kitchen and food-service environments.
04	Heavy-duty fabricated construction Provides greater rigidity and durability under demanding commercial use.

05 Application information

Intended applications	Food Preparation Workstations, Kitchen Washing & Warewashing
Industries	Food & Beverage Processing, Foodservice & Catering, Research Laboratories

Typical lead time	10–15 working days
Warranty	24 months
