---------------------------------	---	---	-----------------------------

01 Product description and specification

Product description	The E22128(DC-112) pot sink provides two centrally positioned bowls for washing cookware in commercial kitchens, catering facilities and food-processing wash areas. Grade 304 stainless steel and 1.2 mm sink-body thickness are standard across this range. Each bowl measures 600 mm long x 500 mm wide x 300 mm deep. The sink body, underframe and framework are stainless steel. A marine edge helps contain surface water, while the 150 mm high rear splashback helps protect the wall behind the unit. Each bowl has a pre-punched waste outlet hole (see the selected model for size). Adjustable feet allow the unit to be levelled on site. Choose 1500, 1650, 1700, 1800, 1850, 2200 or 2400 mm overall length, with a standard width of 650 mm. The working height is 900 mm, and the overall height is 1050 mm including the rear splashback. All seven lengths are available without an undershelf. At 1500, 1650, 1700, 2200 and 2400 mm, you can also select a Grade 304 or Grade 430 stainless steel undershelf in 0.9 or 1.2 mm thickness, or a stainless steel tubular rack. The selected undershelf has its own material specification. Select the required length and undershelf to view the matching model and specification sheet. The main product image shows the 1700 mm model without an undershelf. Working height is measured from the floor to the worktop. Overall height includes the splashback and is calculated from the selected working and splashback heights.
---------------------	---

Short Form Specification	SPECIFICATION USE Use this description when specifying this product range. E22128(DC-112) double-centre-bowl pot sink: 1.2 mm Grade 304 stainless steel sink body; 1500, 1650, 1700, 1800, 1850, 2200 or 2400 mm L x 650 mm W; 900 mm working height and 1050 mm overall height. Two bowls, each 600 mm L x 500 mm W x 300 mm D, with pre-punched waste outlet holes (see the selected model for size). Marine edge, 150 mm rear splashback, stainless steel underframe and framework, and adjustable feet. Specify length and undershelf. Standard models have no undershelf; stainless steel undershelf and tubular-rack options are available at 1500, 1650, 1700, 2200 and 2400 mm.
--------------------------	---

02 Technical specifications

PARAMETER	VALUE	UNIT	TECHNICAL NOTE
Working Height	900	mm	Floor to the tabletop or working surface; excludes any splashback.
Splashback Height	150	mm	Height of the splashback above the tabletop or working surface.

PARAMETER	VALUE	UNIT	TECHNICAL NOTE
Overall height	1050	mm	Overall vertical envelope, including the splashback where fitted. For tables and sinks, this is distinct from working height.
Bowl Length	600	mm	The length of the bowl typically as measured from left to right.
Material	Stainless Steel Grade 304	—	The primary material used in the construction of the item. Certain components may be manufactured from different materials.
Bowl Width	500	mm	—
Material Thickness	1.2	mm	The thickness of the material used for the item's primary construction. The thickness of individual components may vary.
Bowl Depth	300	mm	—

03 Models and configurations

MODEL	DESCRIPTION	PUBLISHED CONFIGURATION
E22128(DC-112-1500)	Heavy-duty double-centre-bowl pot sink in 1.2 mm Grade 304 stainless steel. 1500 mm L x 650 mm W, with a 900 mm working height and a 150 mm rear splashback (1050 mm overall height). Two centrally positioned bowls, each 600 mm L x 500 mm W x 300 mm D, with pre-punched Ø1½-inch waste outlet holes. Marine edge, stainless steel underframe and framework, and adjustable feet. No undershelf. Weight: 39.355 kg.	Length: 1500 mm Undershelf: No undershelf Overall dimensions: 1500 x 650 x 1050 mm (L x W x H) Mass: 39355 g
E22128(DC-112-1500-S109)	Pot sink with two centrally positioned bowls, manufactured from 1.2 mm thick Grade 304 stainless steel. 1500 mm L x 650 mm W; 900 mm working height (1050 mm overall including the 150 mm high rear splashback). Marine edge. Each bowl measures 600 mm L x 500 mm W x 300 mm D, with a pre-punched 40 mm diameter waste outlet hole. Stainless steel sink body, underframe and framework, with adjustable feet. Undershelf: Stainless Steel Grade 304 0.9mm Thickness. Height specification: 900 mm working height, with a 150 mm splashback (1050 mm overall).	Length: 1500 mm Undershelf: Stainless Steel Grade 304 0.9mm Thickness Overall dimensions: 1500 x 650 x 1050 mm (L x W x H)

Undershelf: Tubular Rack. Height specification: 900 mm working height, with a 150 mm splashback (1050 mm overall).	Length: 2400 mm Undershelf: Tubular Rack Overall dimensions: 2400 x 650 x 1050 mm (L x W x H)

04 Functional features

01 Hygienic stainless steel construction

Smooth, non-porous surfaces are easy to clean and suitable for commercial hygiene environments.

02 Designed for commercial environments

Built for repeated daily use rather than light domestic applications.

03	Stainless Steel Grade 304 construction, including framework Provides excellent corrosion resistance, durability and hygiene in normal commercial kitchen and food-service environments.
04	Heavy-duty fabricated construction Provides greater rigidity and durability under demanding commercial use.
05	Deep pot-washing bowl Provides the capacity required to wash large pots, pans, containers and utensils that cannot be accommodated in conventional sink bowls.
06	Two centre bowls Two 600 x 500 x 300 mm bowls provide separate spaces for washing and rinsing cookware.
07	Grade 304 stainless steel The sink body uses 1.2 mm Grade 304 stainless steel, with stainless steel underframe and framework. Undershelf material follows the selected option.
08	Marine edge and rear splashback The marine edge helps contain surface water, and the 150 mm rear splashback helps protect the wall behind the sink.
09	Seven standard lengths Choose 1500, 1650, 1700, 1800, 1850, 2200 or 2400 mm to suit the available space. Standard width is 650 mm.
10	Adjustable feet Adjustable feet allow the freestanding unit to be levelled during installation.
11	Pre-punched waste outlet holes Each bowl includes a pre-punched waste outlet hole for the drainage connection. See the selected model specification for the outlet size.

05 Application information

Intended applications	Kitchen Washing & Warewashing, Pot Washing
Industries	Food & Beverage Processing, Hospitals & Clinics, Hotels & Lodges, Institutional & Contract Catering, Research Laboratories, Restaurants & Cafés

06 Supply and support

Typical lead time	10–15 working days
Warranty	12 months
