01 Product description and specification

Product description	Beverage dispenser for storing and serving drinks in catering and food service settings. The beverage dispenser has been designed with smooth edges and no crevices thereby preventing the build-up of deposits. This allows the unit to be easily cleaned after use. The dispenser features a positive action, easy-to-clean draw off tap for easy dispensing of liquids. Insulated side handles allow easy carrying of the unit even when hot beverages are contained within. Available in a variety of capacities, ranging from 8 to 75 liters, the beverage dispenser is suitable for a variety of applications. It is suited to the dispensing of juices, milk, water and other beverages. If you are looking for an insulated dispenser that will keep liquids at temperature for longer, take a look at our E55113C Insulated Multipot Type C dispenser. Construction and features • Stainless steel beverage dispenser for the easy, and hygienic, holding and dispensing of liquids. • Stainless steel construction ensures the unit is hygienic and easy to clean. • Available in a variety of capacities to suit different requirements and applications. • Insulated side handles allow for easy carrying of the dispenser. • Stainless steel lid with knob fits snugly into the unit.
