01 Technical specifications

| PARAMETER          | VALUE                     | UNIT | TECHNICAL NOTE                                                                                                                                                                                  |
|--------------------|---------------------------|------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Material           | Stainless Steel Grade 316 | —    | The primary material used in the construction of the item. Certain components may be manufactured from different materials.                                                                     |
| Material Thickness | 1.2                       | mm   | The worktop is Grade 316 stainless steel, 1.2 mm thick.                                                                                                                                         |
| Length             | 2000                      | mm   | The length of the item typically as measured from left to right.                                                                                                                                |
| Undershelf         | No undershelf             | —    | Undershelf specification for the selected table product. Grade 304 or 430; solid in 0.9 or 1.2 mm, other constructions in 1.2 mm only. Tubular uses formed open-section sheet metal.            |
| Width              | 600                       | mm   | The width of the item typically as measured from front to back.                                                                                                                                 |
| Height             | 900                       | mm   | The working height is 900 mm, measured from the floor to the worktop.                                                                                                                           |
| Splashback Height  | 150                       | mm   | The rear splashback is 150 mm high as standard. Advanced customisation offers 300 mm or 450 mm splashbacks, measured above the worktop. The splashback runs along the rear edge of the worktop. |

02 Model and supply data

|                   |                                                                |
|-------------------|----------------------------------------------------------------|
| Parent product    | E25144(312) – Grade 316 Preparation Table with Rear Splashback |
| Typical lead time | 10–15 working days                                             |
| Warranty          | 12 months                                                      |

03 Specification notes

|                           |                                                                                                                       |
