01 Technical specifications

| PARAMETER          | VALUE                     | UNIT | TECHNICAL NOTE                                                                                                                                                                       |
|--------------------|---------------------------|------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Height             | 1000                      | mm   | The standard working height is 900 mm. Advanced customisation offers 850 mm or 1000 mm working heights.                                                                              |
| Material           | Stainless Steel Grade 304 | –    | The primary material used in the construction of the item. Certain components may be manufactured from different materials.                                                          |
| Length             | 500                       | mm   | The length of the item typically as measured from left to right.                                                                                                                     |
| Width              | 700                       | mm   | The width of the item typically as measured from front to back.                                                                                                                      |
| Undershelf         | No undershelf             | –    | Undershelf specification for the selected table product. Grade 304 or 430; solid in 0.9 or 1.2 mm, other constructions in 1.2 mm only. Tubular uses formed open-section sheet metal. |
| Material Thickness | 0.9                       | mm   | The worktop is Grade 304 stainless steel, 0.9 mm thick. Choose a separate table range when a thicker worktop is required.                                                            |
