01 Product description and specification

|                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product description      | Heavy duty preparation table with a 1.2mm Grade 304 stainless steel top, 30mm recess and marine edge with 60° recess sides. Full stainless steel underframework, cross bracing, Ø38.1mm tubular legs and black plastic adjustable feet. No fall or drainage outlet.                                                                                                                                                                                                  |
| Short Form Specification | <div><p><b>SPECIFICATION USE</b></p><p>Use this description when specifying this product range.</p></div> <p>Recessed Top Preparation Table Stainless Steel Grade 304 Heavy Duty 1.2mm Thickness with 30mm Recess, Marine Edge with 60° Recess Sides, Full Stainless Steel Underframework, Cross Bracing, Ø38.1mm Tubular Legs and Black Plastic Adjustable Feet. 900mm Overall Height to Marine Edge; 870mm Working Surface Height. No Fall or Drainage Outlet.</p> |

02 Technical specifications

| PARAMETER           | VALUE                     | UNIT | TECHNICAL NOTE                                                                     |
|---------------------|---------------------------|------|------------------------------------------------------------------------------------|
| Working Height      | 870                       | mm   | Height of the recessed working surface: 900mm overall height less the 30mm recess. |
| Overall height      | 900                       | mm   | Overall height measured to the top of the marine edge.                             |
| Material            | Stainless Steel Grade 304 | —    | The worktop is Grade 304 stainless steel.                                          |
| Material Thickness  | 1.2                       | mm   | Thickness of the stainless steel worktop.                                          |
| Product Range       | Heavy Duty                | —    | —                                                                                  |
| Recessed Slab Depth | 30                        | mm   | Vertical depth from the top of the marine edge to the recessed working surface.    |
| Slab Edge           | Marine Edge               | —    | Marine edge surrounding the recessed working surface.                              |
| Framework Material  | Stainless Steel           | —    | Full stainless steel underframework.                                               |

02 Technical specifications

| PARAMETER       | VALUE                      | UNIT | TECHNICAL NOTE                                                                  |
|-----------------|----------------------------|------|---------------------------------------------------------------------------------|
| Cross Bracing   | Yes                        | —    | The stainless steel underframework includes cross bracing.                      |
| Leg Profile     | Round Tubular              | —    | Round tubular stainless steel legs.                                             |
| Leg Diameter    | 38.1                       | mm   | Outside diameter of the tubular stainless steel legs.                           |
| Feet Material   | Black Plastic              | —    | Black plastic adjustable feet for levelling.                                    |
| Adjustable Feet | Yes                        | —    | Adjustable feet allow the table to be levelled.                                 |
| Drainage        | No Fall or Drainage Outlet | —    | The top has no fall and no drainage outlet. Liquids must be removed separately. |

03 Models and configurations

| ITEM CODE                             | LENGTH  | WIDTH  |

| <a href="#">E25160(112-2400x0700)</a> | 2400 mm | 700 mm |

04 Functional features

- 01 Marine Edge with 60° Recess Sides

The worktop has a 30mm recess with a marine edge. The recess sides slope down at 60° to the horizontal; the working surface is level and has no drainage outlet.
- 02 Heavy Duty Grade 304 Worktop

The Grade 304 stainless steel worktop is 1.2mm thick.
- 03 Full Stainless Steel Underframework

Stainless steel underframework includes cross bracing and round tubular legs with a Ø38.1mm outside diameter.
- 04 Black Plastic Adjustable Feet

Adjustable black plastic feet allow the table to be levelled.

05 900mm Overall Height

The marine edge is 900mm above floor level. The 30mm recess places the working surface at 870mm.

06 Dry and Wet Applications

Intended for dry goods sorting and preparation. Wet food-production use requires a separate liquid-removal procedure because the top has no fall or drainage outlet.

05 Application information

|                       |                                                                  |
|-----------------------|------------------------------------------------------------------|
| Intended applications | Dry Goods Sorting, Food Preparation Workstations                 |
| Industries            | Bakeries, Food & Beverage Processing, Fresh Produce & Packhouses |

06 Supply and support

|                   |                    |
|-------------------|--------------------|
| Typical lead time | 10-15 working days |
| Warranty          | 24 months          |
