02 Model and supply data

Parent product	E25380 — Wall Bench Stainless Steel with Gallows Brackets
Typical lead time	10–15 working days
Warranty	24 months

03 Specification notes

Configuration description

The E25380 wall bench provides a 1200mm × 600mm work surface for preparation and general work in commercial kitchens and production areas. Manufactured from 1.2mm Grade 304 stainless steel, it is supported at the wall by gallows brackets.

Wall mounting places the work surface along the edge of the room, keeping the area below accessible for floor cleaning. The stainless steel surface can be wiped down between tasks as part of routine cleaning.

Short Form Specification

SPECIFICATION USE
Use this description when specifying this model.

Basterfield E25380 Wall Bench. Grade 304 Stainless Steel; 1.2mm Material Thickness; 1200mm (L) × 600mm (W) Work Surface; Wall Mounted with Gallows Brackets.

Detailed specification

04 Frequently asked questions

What is the E25380 wall bench used for?

The E25380 provides a wall-mounted work surface for preparation and general work in commercial kitchens and production areas.

What are the work surface dimensions?

The work surface measures 1200mm long × 600mm wide.

What material and thickness are used?

The bench is manufactured from Grade 304 stainless steel with a material thickness of 1.2mm.

How is the wall bench supported?

Gallows brackets support the bench at the wall, keeping the area below accessible for floor cleaning.

What should be checked before installation?

Check the available wall space against the 1200mm × 600mm work surface. Confirm the mounting height, wall suitability, fixing method and intended loading before installation.
