01 Product description and specification

Product description	Three-tier service trolley with recessed trays for moving equipment and supplies in commercial and institutional facilities. Manufactured from Grade 304 stainless steel, the unit offers excellent corrosion resistance, making it suited to hygiene-sensitive applications. Its smooth, cleanable surfaces and resistance to rust make it particularly suited to food handling and healthcare settings. Each of the three recessed trays is formed with a 30 mm lip to secure cups, dishes, multipots, or trays in place during movement. The trays are also removable for easy cleaning or reconfiguration. Fitted with 100 mm swivel castors, the trolley delivers excellent manoeuvrability in tight spaces. Its robust construction and high-performance design make it an ideal choice for demanding service environments. A two-tier version is also available.
