| Product description | <p>Stainless steel plate stacking trolley for storing and transporting plates in commercial and institutional catering areas.</p> <p>The trolley features an inclined base and back support ensuring plates remain securely in place when the trolley is moved. Both supports are welded to the framework to ensure a robust and durable unit. The trolley’s plate dividers are manufactured from 25 mm round stainless steel tubing and are designed to perfectly fit a 245 mm diameter plate. The single-sided stainless steel plate stacking trolley is suitable for carrying 150 plates trays whilst the double-sided trolley can accommodate up to 300 plates. The unit is fitted with four 100 mm diameter, non-marking swivel castors that allow the dish trolley to be conveniently moved.</p> <p>Construction and features</p> <ul style="list-style-type: none"><li>• Features an inclined base and back support ensuring plates remain firmly in-place while the trolley is moved.</li><li>• Base and back support are welded to the tubular frame for rigidity.</li><li>• Plate dividers are supplied to accommodate a 245 mm diameter plate.</li><li>• The stainless steel plate stacking trolley is available as a single-sided unit, with capacity for 150 plates, or as a double-sided unit, which can accommodate 300 plates.</li><li>• The unit is fitted with four 100 mm diameter, non-marking swivel castors that allow the dish trolley to be conveniently moved.</li><li>• Lockable castors can be supplied as an option extra.</li></ul> |
