05 Specification notes

Configuration description	The Basterfield E27292(2000) Heavy Duty Pot Drying Rack measures 2000mm long × 650mm wide × 900mm high. It provides an open support surface for washed pots, utensils and other suitable items to drip dry in commercial kitchens, sculleries and food preparation areas. The Grade 304 stainless steel framework uses 40 × 40mm square tube with cross bracing. Ø28mm round tube cross members form the drying surface, allowing water to drip through after washing. Stainless steel adjustable feet allow levelling during installation. Check the rack footprint against the available space and the size of the items being dried.
