04 **Surfaces for Routine Cleaning**

Stainless steel surfaces can be wiped clean. Leave sufficient access around stored items for routine cleaning.

05 **Size and Shelf-Count Options**

Request alternative shelf lengths, depths, overall heights and shelf counts using the configuration selectors. Include the selected size and shelf count when requesting a quotation.

04 Application information

Intended applications	Storage & Organisation
Industries	Hotels & Lodges, Institutional & Contract Catering, Restaurants & Cafés

05 Supply and support

Typical lead time	10–15 working days
Warranty	12 months

06 Frequently asked questions

What is the standard shelving configuration?

The standard E27350(112-1000x0400-04S) has four shelves, each 1000 × 400 mm, and is 2000 mm high overall. It uses 1.2 mm Grade 304 stainless steel and has adjustable feet.

Which size and shelf-count options can I request?

The configuration selectors cover shelf lengths of 1000, 1200 and 1500 mm, shelf depths of 400 and 500 mm, overall heights of 1800 and 2000 mm, and three, four or five shelves. Include your selected dimensions, shelf count and required shelf clearances when requesting a quotation.

Is there already a 1500 × 400 mm five-shelf model?

Yes. Select 1500 mm shelf length, 400 mm shelf depth, 2000 mm overall height and five shelves. This selects the existing E27350(112-2000-05S) model, now included in this range with its original item code.

How much weight can each shelf carry?

Specify the intended load per shelf and how it will be distributed when requesting a quotation so the shelving can be selected for your application.

What shelf clearances should I specify?

The feet are adjustable for levelling. State the clearance needed between shelves when requesting a quotation.

How should the unit be cleaned?

Wipe the surfaces with a soft cloth and a suitable stainless steel cleaner, following the cleaner instructions, then rinse and dry as appropriate. Keep access around stored items for routine cleaning.
