Outlet for a 40 mm (1½″ BSP) waste fitting.

03 **Grade 304 Stainless Steel**
Stainless steel collecting tray with a removable perforated insert.

04 **Six Countertop Sizes**
Lengths of 300, 450 and 650 mm; widths of 200 and 300 mm; published models are 35 mm high.

05 Application information

Intended applications	Hot Water and Beverage Service
Industries	Hotels & Lodges, Restaurants & Cafés

06 Supply and support

Typical lead time	10–15 working days
Warranty	12 months

07 Frequently asked questions

How is the tray connected to pipework?

Place the tray on the countertop and fit a suitable 40 mm (1½″ BSP) waste fitting. Provide a cut-out in the countertop beneath the centre waste outlet so the fitting can connect to the pipework below. Size the cut-out to suit the selected fitting and allow access below the counter for connection and servicing.

Does the countertop need a cut-out?

A cut-out beneath the waste outlet allows the waste fitting to reach the pipework below. The tray sits on the counter; determine the cut-out dimensions from the selected fitting.

Which sizes can I select?

Choose 300, 450 or 650 mm length and 200 or 300 mm width. The six published configurations are 35 mm high.

Is the waste fitting included?

Confirm the required waste fitting and pipework components when requesting a quotation. This product specification defines the tray and its waste connection.

Is there a side-spout alternative?

The separate Countertop Drip Trays With Side Spout range offers 350, 450 and 650 mm lengths in 200 and 300 mm widths. All six models are 35 mm high; the original 350 x 300 mm model retains code E55810(0350S).

VERIFICATION REQUIRED Published values are provided for initial specification. Confirm the selected model, critical dimensions, site services, clearances, and the latest document revision with Basterfield before procurement, manufacture, or installation. E&OE.
